

DISARM! APPEAL OF FRANCE

LABOR STAGES
AL AND HYLAN
TRUCE FOR DAYOn Same Platform
They Avoid Rancor.

BY ARTHUR SEARS HENNING.

New York, Sept. 7.—[Special]—Coming in deference to the propriety of the occasion, the animosity in which they have been indulging in the mayoralty campaign, Gov. Al Smith, Mayor Hylan, and State Senator Jimmy Walker, Tammany candidate for mayor, met on the same platform at a Labor day celebration at Fort Hamilton, Long Island, today and made more or less nonpartisan addresses glorifying toil and organized toil.

The affair passed off without any casualties or untoward incidents, but the decorum imposed upon these Democratic primary antagonists was a visible strain upon them in varying degrees—most of all upon the mayor, who stopped just on the brink of an other onslaught on the traction conspirators and political traitors whom he portrays as seeking to remove him from the path of their scheme to plunder and debase the American metropolis.

Spectacle Pleases Workers.

On the parade ground of the army post, under leaden skies, some 3,000 people were afforded the sight of the governor and the mayor facing each other, but each apparently oblivious of the other's presence, in a little bunting draped open air speaking stand no larger than a prize fighter's ring.

The governor was the first to arrive, in company with his candidate, Senator Walker. While the band played the "Sidewalks of New York" and the workingmen and their families applauded, the two officials were seated on the platform among the leaders of organized labor.

Shortly thereafter came the mayor who ascended the platform and came pugnac face to face with Senator Walker, whom he has been denouncing so comprehensively as everything reprehensible, from frivolous song writer to attorney for packers of putrid meat.

Grip on Faces of Foes.

"Hello, candidate," was the mayor's greeting to Walker in a tone of grimly enforced pleasantness. The senator returned the salutation with a grin and a handshake which the mayor found himself unable to avoid. All on the stand, the governor and one or two of his party, had risen and applauded when the mayor appeared.

Mr. Hylan was placed on one side of the platform squarely opposite the governor not ten feet away. The governor glanced fleetingly in the direction of the mayor, but evidently did not recognize his honor. The mayor then looked right through the governor without detecting any person of his acquaintance.

Chairman John Sullivan, president of the Central Trades and Labor council of Greater New York, introduced the governor first.

White House Tune.

Mr. Smith rises and begins to speak, but is drowned out by the band playing the "Red, White, and Blue."

"That's the tune for going to the White House," shouts an admirer. There is some applause and the mayor is observed carefully scrutinizing the band.

The governor is the same old Al for the constraint under which he is laboring. A trim, active figure, clad in a blue sack suit with natty shirt and tie. A boyish, florid countenance on which time has left few marks. Twinkling blue eyes, graying hair in the middle.

He begins by clasping his hands behind him, thus thrusting back his thin torso and disclosing his watch chain, which is equatorially dividing his upper and lower hemispheres. He is laboring now in that familiar tortuous manner, in that voice the rauhness of which was produced, "the boy is crying of fish to sell in the early days."

Sleekly Dodges Partisanship.

He is complying strictly with the law of nonpartisanship, merely refreshingly the recollection of the assembled crowd as to how the workmen's compensation law was achieved and other reforms conferred upon labor by legislature and administration at Albany, the knowledge and such pride in his accomplishments that these great reforms were accomplished under the leadership of Walker and his candidate, Senator

TO AMERICA. Left to right: Prince Paul of Greece, Prince of Wales, and the Duke of York.

The governor ended with thanks to the workmen for their cooperation in carrying that means better government for this state." All on the stand stood up and applauded—that

Kidnapping Mary, 6 years old, as she layed at noon Friday on a lawn near her home in Montclair. Noel pleaded guilty. The hearing was at Cedar Grove.

He was then accused of the slaying of Pierce, whom he shot to death for possession of the Negro's automobile. Ignoring his signed confession to the Montclair police, the youth pleaded not guilty.

"Remember, gentlemen," he said, "I never killed any one."

The youth will be arraigned, probably tomorrow, on the charge of shooting the little girl, who was found dead in a lonely stretch of the Freshman mountain.

After this he will be held accountable for atrocious assault, with intent to kill, or Sandin.

Lived Like a Hermit.

It was learned that Harvard was not the only college Harrison Noel tried.

He went to several places, where he failed. His last college entrance was at Williams, where he insisted on living like a hermit in a cabin doing his own cooking and paying scant heed to lectures and other college interests.

Officials tonight said Noel was afflicted with some form of the Oedipus complex, introducing extravagant and fitful affection for his mother, and perhaps antagonism to his father, growing out of his parents' alleged domestic difficulties.

Noel's head at the time was an unusual size for a 6-year-old. Whether he wanted to give it to his mother or spend it himself is not known.

Lieut. Harry Walsh and Sarge. Patrick Reilly of the Jersey City detective bureau today told the story of how Noel first confessed to the shooting of Mary.

They went to the Noel home and asked Mrs. Noel for permission to search the son's room, which was granted.

In the room they discovered first some "beggars," a small burr which grows thickly in the region where the car was found. They also discovered the receipts for the revolver Noel bought in New York.

The revolver was found alone at headquarters with Noel and they showed him the receipts for the revolver. Then they told him that a New York pistol expert had declared that the revolver had been fired within the last forty-eight hours.

Noel Admits Killing.

Noel turned to Walsh and said:

"I'll tell you where she is, but she's dead."

"How did you kill her?" the detective said he asked.

"I fired two shots."

"Why?"

The youth then said, according to Brady's version, that he had become stricken after the chase and for that reason put her out of the way. He then drove to Mountain View and there, on a deserted bit of road surrounded by high summac bushes, stopped the car and told Mary to get out.

He descended from the right side of the machine and she got out the left.

He descended from the right side of the machine and she got out the left.

ROBBER SHOOTS GIRL; POLICEMAN WOUNDED LATER

Police Officer William Krause, 2276 Avenue M, of the Kensington station, was severely wounded last night at 127th street and Wallace avenue when he questioned four men who aroused suspicion.

Kensington police believe the men were those who a few minutes previously had shot May Fago, 19, of 15 East 126th street, West Palmman, in a holdup of two couples at Vermont and Halsted streets, Blue Island.

The robbers had come out of the shadows to the parked car where Miss Fago, a friend of Krause, and two girls, George Mast and Alexander Fritz, 12401 South Michigan avenue were sitting. The thieves ordered the quartet from the car. They took \$10 from Miss Fago, and when she attempted to run one of the robbers shot her. The robbers fled then in Mast's car.

The car used by the men who shot Krause answered the description of Mast's automobile. Krause was sitting in his car with Miss Sophie Lewandowski, his fiancee, when the supposed robbers stopped nearby. He was taken to the Fullman emergency hospital and Miss Fago to St. Francis hospital, Blue Island.

Sergeant Anderson and Policeman M. and O'Donnell later arrested Robert Darling, now under indictment for automobile stealing; Daniel McNamara, an ex-convict, and two boys, each 16 years old.

She had been crying softly, according to Noel's story, and was still weeping, calling continually for "mamma." Noel then led her, taking her right hand in his left, about thirty feet into the sumac bushes.

There, still clinging to her hand, he pulled his pistol. She was walking a mile in advance of him, according to Walsh's version, and, without letting go of her hand, the youth raised the pistol and fired twice into her head.

He said he left the stolen car and got his own, which he had parked there previously, and then drove to the home of his friend, the youth he had driven to his home in Montclair.

When he got home he took a bath and changed his shirt. He then took his younger sister to the girl scouts' headquarters in Montclair and brought her home. Then he drove to the public library and took out a novel entitled "The Jester."

On his return home from the library he stopped in Glen Ridge and by searching alphabetically in the phone book found the Bower number in Montclair and telephoned about the "little girl in a pink dress." When Mrs. Bower asked him his name he hung up.

I Wish I Had Pretty Feet

and could wear skirts as short as yours, Elsa."

"It isn't the feet, but the shoes that are pretty. If you haven't seen the new Pedemode pumps, get downtown the first thing tomorrow. You'll shorten your skirts when you see them!"

CROWE BLAMES FRANKS VERDICT FOR DALY CRIME

Depicts Harm of Leniency in Murder Cases.

"If Nathan F. Leopold Jr. and Richard Loeb had been hanged the kidnaping and murder of Mary Daly in Montclair, N. J., might have been prevented," said State's Attorney Robert E. Caverly last night.

This is the first time the state's attorney has made the statement. Caverly made a year ago when he allowed the millionaire's sons to live despite their pleas of guilty to the heinous crime of kidnaping Bobby Frank for ransom and murdering him for an experiment. Mr. Crowe went a bit farther than just that statement.

Mr. Crowe's Stand.

He said that if Judge Caverly had been as lenient as he was, he would have been hanged in his home at 1501 Columbus avenue. He added that the fraternity would conduct its own investigation.

Mann was inclined to believe that some inactive member or alumna took advantage of the fact that the doors were never locked to hold a party in the house. He said that he did not know of any active members living in the house during the summer.

men on Juries who say they will not hesitate to inflict the death penalty in a proper case, and then show them a proper case, and frequently one man will dissuade the other eleven from doing the proper thing.

"That's one of the reasons for my belief that Judge Caverly's decision in the Leopold-Loeb case did much harm to the public in this country by being lenient in that one case, and the consequence publicly, many innocent lives have been lost."

He made it plain that he was not making an attack on Judge Caverly but that he was calling attention to a situation that must be met by the public. "The only way to stop the wave of murder in this country is by showing mercy to no murderers."

"That much I know," he asserted.

"There's something that's as simple as that two and two make four: hangings do act as a deterrent of murder. I wish we could make juries believe it.

The Jury Situation.

"The fact is that juries won't be held to it—not often enough. We get

N. U. FRAT TO EXPEL MEMBERS INVOLVED IN WILD, NOISY PARTY

The Phi Epsilon Pi fraternity, whose home is at 228 University place, Evanston, was closed by Northwestern university authorities because it was alleged a party at which liquor and women were present was given on the premises, will expel any active members who participated in such festivities.

This announcement was made yesterday by Marvin L. Mann, vice president of the fraternity, after being informed by his father, who had been invited to the party.

Mann was inclined to believe that some inactive member or alumna took advantage of the fact that the doors were never locked to hold a party in the house. He said that he did not know of any active members living in the house during the summer.

Mr. Crowe's Stand.

He said that if Judge Caverly had been as lenient as he was, he would have been hanged in his home at 1501 Columbus avenue. He added that the fraternity would conduct its own investigation.

VACATION BY SEA KEEPS COOLIDGE IN GOOD HEALTH

Regrets Return to Capital This Week.

Swampscott, Mass., Sept. 7. (AP)—President Coolidge will be back at his desk in Washington on Thursday.

Decision to end his vacation here was reached by the President, setting a

vacation for himself and his family.

Mr. Coolidge will return to Washington by train, making the trip over night, and probably leaving from Salem, where he arrived eleven weeks ago, tomorrow.

Mr. Coolidge Benefited.

Not only has the President been enjoying unusually good health, but Mrs. Coolidge has been feeling well.

By his side here, she does much more

walking than the President, setting a

fast pace with a swinging stride, and

freely covers five miles or more

a day on highways near White Court.

DAVIS ASKS NEW LAWS TO ASSURE WORKERS OF JOB

Overdeveloped Industry Is
Called Peril to Labor.

By THOMAS WREN.
Report of all those which restrain industrial combinations in such a manner that many small and inefficient plants remain in operation, thereby causing overproduction and insecurity of employment, was urged yesterday by Secretary of Labor James J. Davis in a Labor day address at Moonbeam, Ill.

Mr. Davis said nothing worries a workingman as much as the fear of losing his job. He pointed out that the worker's ever haunting fear of an indefinite layoff comes when he is least prepared or able to stand it.

Industry Overdeveloped.

"He cannot work when the employer cannot sell the product of his labor," said Secretary Davis. "The greatest source of unemployment in this country comes from the overdevelopment of industry. The fact is that our productive machinery and equipment cannot run more than 300 days a year without producing a stock that cannot be sold in this or in any other country."

Citing the boot and shoe industry, Secretary Davis pointed out that a census shows there are 1,570 boot and shoe factories operating in the coun-

try. Of these, he said, 227, or 14 1/4 per cent, produce at present 65.6 per cent of all shoes and boots produced. The labor secretary said that if the specified factories could operate full time they could produce 95 per cent of all shoes made and sold.

Two Groups of Makers.

But there is another group of 788 establishments, or 47 per cent of the total number of manufacturers, who employ about 25 per cent of the shoe-makers and produce 31 per cent of the nation's output of shoes and boots," asserted Secretary Davis.

"This group could produce probably 50 per cent more shoes and boots and it does at present if the surplus could be sold. In other words, 14 1/4 per cent of the factories employing 47 per cent of the workers, now produce 65.6 per cent of the total. This group of manufacturers could produce a sufficient amount of shoes for the nation working on 300 days in a year basis."

Secretary Davis then asserted that the balance of the shoe workers operate solely in an economic sense to prevent any of the workers from getting a full year's employment.

Economic Law First.

Referring to Illinois coal mining, Secretary Davis said that 84 of the 128 strip mines in the state could produce, on a 300 days in a year employment basis, approximately 77,782,800 tons of coal, he said, which is 7,000,000 tons more than all the striping mines in the state produced in 1924.

"This is the point," he said, "that 254 of the strip mines in Illinois represent an unnecessary expenditure of money, so far as the capital invested concerned. It also means that present conditions prevent an adequate number of mines from producing an adequate supply of coal, making it impossible in the meanwhile for the mine owners to give their miners a reasonable employment each year."

Gives His remedy.

Discusses possible remedies for such conditions, Secretary Davis said: "I realize that at present this may be dangerous ground for a man who does not pretend to be a lawyer. It may be that the law as it stands is a barrier to any remedy. If so, I submit that there must be something wrong with the law. A generation ago our people were frightened by the term 'combination' and 'trusts.' I grant that the new commercial and economic conditions that were growing, or could reasonably be expected, would grow out of trusts and controlling corporations within a given industry, were conditions which the people should consider seriously."

"Too frequently the people got information on the subject from hammers of free eating politicians who link in the trusts and combinations a new way to break into politics, and maybe to get a seat in congress. In other words the information that the people had as to the subject and purpose of these corporations was not well thought out."

Secretary Davis referred to the German cartels or trusts, declaring that the operation of combinations in Germany has not ruined that country.

"As a result, we have on our statute

DECKS CLEARED FOR ARRIVAL OF NEW DRY CHIEF

Yellowley Here Today to
Organize Office.

Prohibition decks last night were reported cleared for the arrival of Chicago's new booze skipper, E. C. Yellowley, who is scheduled to arrive this morning from Washington.

He is expected to devote his first efforts to the unification of the former Illinois, Wisconsin, and Indiana offices and, after that, to the former general agents' heads-quarters.

Records from the Indiana office and those pertaining to the eastern half of Wisconsin have been sent here and the former Illinois enforcement offices have been converted into a file and record room.

Plan of Headquarters.

The new administrator will take up his personal headquarters in suite 303 Transportation building—the rooms formerly used by Illinois Director Percy Owen. Former general agents' headquarters on the seventh floor of the Transportation building will be used as a squad room for agents.

Just as soon as he has routine details in workable shape, it is expected, Mr. Yellowley will begin on the task of selecting his new personnel. On Oct. 1 all men will hand in their badges, credentials and arms. Whether they have them handed back or not is a matter that will rest solely with the new administrator.

Enforcement matters, it is said, are not expected to be very pressing, inasmuch as bootleggers are reported to be few and far between, according to the prohibition bosses. The racket is reported to be in an uproar, pending some revelation of the modus operandi of Gen. Andrews, Yellowley, et al.

Stop Alcohol Leaks.

The fight against leaks in industrial alcohol plants, described by Gen. Andrews as nationally being one of the most urgent enforcement problems, has been under way here with successful results for some time. Gen. Andrews, characterized as one of the most efficient enemies of alcohol cheaters, has been on the job for over a month of nearly two years.

THE FIGHTING IN MOROCCO

According to a Paris dispatch, Spain's attempt yesterday to land troops in Alhucemas bay for an attack on Adir, the Riff capital, resulted in failure. The Spaniards left 500 dead behind after being caught in a cross fire of Riff guns concealed along the rocky coast.

The Moors are now fighting around Spanish posts two miles from Te-

tuan and at one place cut through the Spanish line and reached the neutral zone of Tangier. If the Moors hold this break in the Spanish line they will have new access to military supplies.

There are indications that the Moors are also preparing to attack Ouezzan, where the French have concentrated a large army.

two months and is credited with having the situation under control.

Howard and Green have succeeded in keeping the cheating industrial plants of Chicago in a high state of anxiety. Although they attribute it to business conditions, several big plants have closed down. Other suspended plants are operating at a minimum and submitting samples of all alcohol withdrawals to prove it is done.

Howard and Green have succeeded in keeping the cheating industrial plants of Chicago in a high state of anxiety. Although they attribute it to business conditions, several big plants have closed down. Other suspended plants are operating at a minimum and submitting samples of all alcohol withdrawals to prove it is done.

Permit Holders Anxious.

Whiskey permit holders are said to be showing some of the unpleasant pains of the sickly men. Yellowley is reputed to be a wizard at spotting questionable withdrawals, and with the Rev. B. E. Ewing scheduled to be placed in charge of the permit section some druggists, a number of the patent medicine manufacturers and other big permit holders are on the anxious seat.

CAPT. KELLINGER BACK ON JOB.

After an absence of ten days, due to illness, Capt. Paul Kellinger of the Central police force returned to his duties yesterday. The illness was the first that had caused Kellinger a prolonged absence in his police career of nearly two years.

BRACING FAULT IN SHENANDOAH, ADMIRAL FINDS

Washington, D. C., Sept. 7.—(Special)—Rear Admiral C. W. Dyson, engineering specialist, reported to Secretary of the Navy Wilbur today that the collapse of the Shenandoah probably was due to faulty diagonal bracing in the craft.

Admiral Dyson was sent to the scene of the wreck by Secretary Wilbur to make an independent investigation. He reported upon his return today that he found that some of the diagonal bracing had pulled loose from its supports. This bracing is of wire mesh and is giving to rigid airships. Their longitudinal supports are held in place by diagonal bracing.

With the bracing weakened, Admiral Dyson thought it not surprising that the Shenandoah had failed to withstand the storm.

Theft of some of the big gas cells by souvenir hunters and mutilation of others, Admiral Dyson said, made it difficult to determine to what extent any failure was due to human error.

Most of the previous reports dealing with the reduction in the number of safety valves gave the impression that some of the gas cells could not discharge," said Secretary Wilbur, in commenting upon Admiral Dyson's report. "Admiral Dyson found that all of them could discharge into a common system. Of course, it remains to be determined whether the reduced number of outlets in the common system permitted the dis-

charge of helium at a sufficiently rapid rate."

Funeral services for four of the victims of the Shenandoah will take place at Arlington cemetery tomorrow morning. They are Lieut. Commander Zachariah, commanding officer of the ship; Lieut. Commander Lewis Hancock, Lieut. J. B. Lawrence, and Lieut. E. W. Sheppard.

NAVY EXPLAINS WHY BODY OF SHENANDOAH VICTIM WAS NEGLECTED

Washington, D. C., Sept. 7.—(Special)—Inadequate undertakings in the Ohio mining district, where the Shenandoah met disaster, made it impossible to give the measure of care in preparation of the victims' bodies de-sired by officers in charge of the work.

This explanation was given by navy department officials tonight on learning that Howard W. Spratley of Venice, Ill., father of William H. Spratley, who was killed in the disaster, had wired Secretary Wilbur, protesting about the condition in which the body of his son was received and the absence of an escort.

The lack of naval facilities so far inland as Ohio made it impossible to send escorts with the bodies, the officials explained, and they were sent with express charges collected on delivery. The naval paymaster had not arrived at the scene to make disbursements. The department will reimburse relatives of the disaster's victims, they said, upon receipt of an account of money expended.

Causes realized in Chicago for week ending Saturday, Sept. 5, on shipments sold out, ranged from 7.00 cents to 22.00 cents per pound and averaged 12.49 cents per pound.—Adr.

SEC. WEEKS MAY DECIDE ACTION IN MITCHELL CASE

Washington, D. C., Sept. 7.—(Special)—Decision as to the action to be taken by the war department in connection with public charges made by Col. William Mitchell against the air service administration of the war and navy departments awaited tonight the return to his desk tomorrow of Acting Secretary Dwight F. Davis.

In his absence, department officials would not disclose what steps had been taken since Saturday to obtain an official recognition, which they would be no basis for disciplinary action against Col. Mitchell, either by way of reprimand or court martial.

Since in previous cases where the public remarks of Col. Mitchell have been of a nature to indicate possibility of disciplinary action by the war department, the policy has been determined by Secretary Weeks, it is regarded as improbable that Acting Secretary Weeks will move in the present instance without ascertaining himself that the course his plan is approved by Mr. Weeks.

Causes realized in Chicago for week ending Saturday, Sept. 5, on shipments sold out, ranged from 7.00 cents to 22.00 cents per pound and averaged 12.49 cents per pound.—Adr.

RAIL RECEIVER
DEFENDS HIGHER
RATE DEMANDSWestern Lines Open Their
Case Today.

If all their products were hauled free to Chicago the farmers in the long run would not make a cent more profit," said W. Potter, one of the receivers for the Chicago, Milwaukee and St. Paul railroad, said yesterday. He had arrived to attend the opening session this morning of the hearings on rate increases before Clyde B. Atchison of the interstate commerce commission. The meetings will be at the Edgewater Beach hotel.

"All this talk about an increase in rates during the farmer is a bank of politicians and so-called statesmen," Mr. Potter continued. "The rate increase means increased efficiency for the railroads, better transportation for the farmer, more labor, better prices. The western roads must have more revenue. The only question is how they are going to get it.

Cites Conditions in Southeast.

"Take the situation in the southeast. The roads there are making about 7 per cent on their investment. Yet farmers and shippers are not complaining about rates. They are getting better service than ever before. Extensions and other improvements are being made, and they are all better off. You cannot afford to starve the railroads.

Under the transportation act the railroads are permitted to make 5% per cent. Last year the western carriers made about 3.87 per cent. It would take an eleven per cent rate increase to make up that difference.

The western roads have agreed to ask for only 5 per cent increase. I have proposed that the basis of this 5 per cent be pooled and divided among all the western roads according to earning power. This will be determined by the commission. In principle it carries out the consolidation idea, as some of the strength of the strong roads in this way is given to the weaker roads."

Potter and Hughes Confer.

Mr. Potter was in conference during the morning with Charles E. Hughes, who has been retained as counsel for the receivers of the Chicago, Milwaukee and St. Paul. Mr. Hughes, after going over the method in which the evidence will be presented to the commission, left for New York in the afternoon. He will not appear at the hearings until the arguments are heard before the commission.

The Chicago hearings are scheduled to last until Sept. 16. The commissioners have on the orders to furnish a great amount of data, including a statement of operating expenses, information as to miles operated and the number of tons handled by each line for 1924. The roads will be given this time to present the picture of their plight. Cross-examination will be limited now, but the protesting shippers and farmers will be given hearings at later dates in other cities.

Hoover's Idea.

Testimony bearing on the application of the 73 western roads for 5-per cent increase in rates and also the application of the Hoch-Smith resolution will be heard.

That resolution is in part an outgrowth of the proposition of Herbert Hoover, secretary of commerce, that present freight rates are too low and that a rail system would result in a higher rate on high priced commodities and a lower rate on basic agricultural commodities. It also comes from the feeling on the part of the agricultural bloc in congress that agricultural rates would be on a pre-war level.

Hundreds of traffic experts and lawyers are expected to attend the session before the commission. The American Farm Bureau federation and the Illinois Agricultural association are opposing the increase. Henry H. Park, traffic manager of the Chicago

IDEAL WEATHER
AIDS FESTIVITIES
OF LABOR'S DAYMaximum 81; Cloudy,
Promise for Today.

Ideal holiday weather attended Labor day festivities in Chicago, with 81 degrees the maximum temperature for the day. The high point was reached for a short time around noon. During the remainder of the time from dawn to dusk the mercury was in the seventies.

Although the sun was shining merely most of the day, its blistering powers, demonstrated throughout last week, were dissipated by cool breezes.

Partly overcast weather is predicted for today with not much change in temperature.

Break Beach Attendance Record.

Chicago beach superintendents announced last night that all two day attendance records for the year were automobiles.

broke Sunday and yesterday, although Labor day usually is supposed to mark the official end of the bathing season. According to estimates by the superintendents, more than 250,000 persons visited the beaches during the day.

It was said that beaches this year will remain open until unpleasant weather sets in, providing appropriations for guards and maintenance are not exhausted.

St. Louis Still Suffers.

St. Louis continued to lead the list of middle west cities suffering from the heat, although slightly moderated temperatures were experienced yesterday. The list of deaths suffered by heat in St. Louis was brought to twelve in tabulations made public yesterday.

The country roads, the parks, and the forest preserve claimed their share of the heat.

Since there were no programs or parade, the citizens sought independent recreation.

The main highways leading into the city began to fill early yesterday afternoon, and by evening most of them were endless, slow moving lanes of

Cermak Plans More Camps
to Build Up Children

Several summer camps, where children from the slums of Chicago may enjoy free vacations next summer, are being planned by President Anton J. Cermak of the county board. The success of Camp Reinberg in Deer Grove, where for several years hundreds of children have spent two weeks of the summer, inspired the plans. Remarkable improvement in the health of children was reported by medical attendants.

WALKS ON RAILROAD TRACK: KILLED.

Joseph Magrady, 35 years old, 5520 Washington, was killed yesterday when he was struck by a train while walking on the railroad tracks near Des Plaines.

by Radium

The wonderful curative power of radium has been known for years, however, the benefits of this remarkable metal to the human system have not been fully realized. Since the invention of Desmet's Re-Active Solar Pad, and the use of some of the best radium, we afford this treatment which offers so much relief from suffering and disease. The Desmet Re-Active Solar Pad is worn next to the body day and night, it is porous and allows the passage of radioactive energy into the system while you work, play or sleep, helping to build up the body and rid it of those that cause a strong, healthy condition. It is a remarkable curative, which is the cause of most disease, which the Desmet Re-Active Solar Pad can do for you, we will be happy to give you a demonstration if it fails to give satisfaction. We offer a guarantee to any woman who has pain of any kind, nervousness, high blood pressure, rheumatism, dropsy, free circulation, bladder trouble, or disease of the lungs or heart. No matter what your ailment or how long you have had it, we will gladly give you a demonstration at our store. Write today for free literature and appointment. 1467 Bradbury Blvd., Los Angeles, Calif.

Rolande Sends from Páris
Autumn Colored Velour Hats

"Smallest hats are smartest and if they be of velours in happy gay colors, they assume fashion importance to the well dressed woman." So reads the Paris reports and yet—The large hat shown is the one smart large shape the mode approves. Of black satin and felt, it is \$20.

The velours in many tricky little shapes display the versatility of Rolande. They are of lustrous, silky quality, \$18.50.

Street Dresses for Autumn Days
Assume First Rank Importance

Days are here when one hastens forth in the morning to shop—attend club meetings or lunch in town—that one may remain smartly garbed through tea-time these frocks are suggested—

"Vary the fastenings," orders the mode and so a frock of gray Patou Crepe outlines its smart choice with blue leather and silver stitching. Shown at left, \$95.

Chenille started the season as fringe, but here it is closely allied with voile chiffon and black velvet, creating a modish two piece frock. At center, \$65.

A graceful Hickson model is developed in black Mirroleen Ottoman with canary rimmed buttons and canary silk collar and cuffs. Shown at the right, \$75.

Accessories
to the fact of
Milady's Chic

"From Paris" — words dear to the heart of those who aspire to chic—reads the cachet on the smart femininities shown in the Directoire Lounge.

"Claire de Lune"—Moonlight—and the romantic fragrance one expects from this new perfume of ours will fulfill your expectations. That you may become acquainted with this delightful odor a generous purse sized flacon awaits you.

Fitting indeed that one should find the mode's favorite purse—a reproduction of Napoleon's Postillion bag—in our Directoire Lounge, \$45. The pearl choker, \$12.50.

A lovely lady of old France comes to lend her decorative charm to your modern home. \$45.

Simplicity Marks the Youthful Mode

With a Keen Attention to
Individualizing Details

Summer days are over and the young maid's fancy strongly turns to Autumn clothes. Here, in our Debutante Salon, fashion is interpreted to meet her requirements of suitability for the occasion.

Rosy Georgette to wear to tea parties adheres to the edict of flares and continues a rippling collar to the hem line, then—flares some more. \$49.50.

Top-coats for fall motoring are smartest in these manly plaid with double breasted front. \$45.

From the famous Eton University uniform, comes the inspiration for the frock with the pleated shirt front. Shown next to the coat, \$65.

A blue Mirroleen dress further proves the case in favor of the Eton. Second from the right. \$55.

Frankly frivolous, a tasseled vanity of black silk has hand-made Point de Beauvais embroidery, \$15.

Around the twenty-four hours in style you'll go if you tell the hour by one of these exquisite round enameled watches, \$30.

THE MITCHELL CHARGES.

Col. Mitchell's broadside, we suppose, compels official action. Our hope is that whatever the action, it will result in the progress of aeronautics in this country. We are not as much impressed with Col. Mitchell's desire to be burned at the stake as perhaps we ought to be. We gather from the colonel's indictment of the war and navy departments that every one who disagrees with the colonel's opinions is little less than a traitor and that there is a conspiracy of all the army and navy men who are not flyers to kill off the flyers as fast as possible and thus save their own jobs from being abolished as obsolete. We are unable to accept these implications, as we are unable to accept as authoritative or conclusive Col. Mitchell's sweeping assertion of the obsolescence of surface ships or as to the effectiveness of the airplane, the dirigible, and the submarine.

As to the latter, it has seemed to us wise when confronted by such claims as Col. Mitchell and others make to remember that we have had a great war quite recently in which the airplane, the dirigible, and the submarine were used but without any such results as Col. Mitchell jauntily assumes the flyers could achieve today. Have any of them been improved so much since 1918 that the colonel's claims could now be justified? Not to our knowledge, nor, we believe, to his.

Col. Mitchell is afraid the public will be induced by the enemies of aviation, whoever they are, into refusing support for aviation appropriation. There is at least as much danger that excessive claims on behalf of air warfare and the submarine will pervert public opinion and embarrass a wise breadth of development of our defenses.

We think the important charge made by Col. Mitchell, which deserves more serious attention than his extreme views, is that bureaucracy is placing too much authority over aviation in the hands of men who are not specialists in aeronautics. Such things have happened before, and they will happen again. But a fair inquiry should reveal defects in organization of this nature. We have no doubt a man like Senator Binion of Connecticut, himself a flyer and commander of flyers in war time, can give congress and the public a better report of our situation in aeronautics and wiser recommendations for action than Col. Mitchell.

We do not impugn the fiery colonel's motives, and we hope practical benefits will come from his sensational charges. But we trust the public will take his charges and his views of policy with considerable allowance. Our defense program, military and naval, should not be governed by experimental radicalism but by a combination of conservatism and enterprise. By all means let us develop aeronautics and the submarine, but certainly not give up the elements of military and naval efficiency which have been approved by experience.

LABOR DAY, MODERN STYLE.

Organized labor doesn't parade on Labor day now. It doesn't have to. Parades are sometimes useful for rallying the supporters of a cause or for demonstrating strength or for advertising a demand. But organized labor isn't a "cause" nowadays in this country. Its strength doesn't have to be demonstrated. It doesn't need a parade any more than the associations of commerce need a parade, and union workmen would rather spend their holiday in more pleasurable ways than trudging city streets.

If American labor were fighting for existence and for the essentials of progress and prosperity there would be parades and demonstrations. But American labor is conscious of its normal place in the American scheme, of its recognition in law and public opinion, of its steady advance in prosperity. The class-consciousness preached by socialism has not developed in this country because the American workman is citizen-conscious, knowing that there are no lines he or his country.

So when parade as labor when he can put the wife and kids in the old bus for the new one and go off touring as just a plain American citizen like his employer?

GETTING A JURY.

Last week was spent in one court in trying to get a jury to try the men caught in the raid on the Drake hotel. And Saturday they were 4 men short of the required 12.

In England, where the efficiency of the system of dealing with criminals is as remarkable (to us) as is the inefficiency of our system (to the Britons), an hour or two would suffice and this whole case would have been tried and verdict rendered while our process was exhausting the first call of veniremen.

That is one reason why our calendars clog up and our jails are kept full of culprits waiting trial, or worse still, are out on bail doing more mischief or laying wires to defeat justice.

In cases which have had great publicity, like the Drake crime, the process of getting a jury is especially slow, difficult, and unsatisfactory owing to the rule which permits a challenge for cause if the venireman says he has formed any opinion. Our people are generally literate and read the news, and if the case is notorious it is very hard to find men who have not formed some opinion. The

rule therefore slows down the trial and also lowers the intelligence level of juries. Is it smart?

We think emphatically it is not. If the venireman has no personal or special prejudice against the defendant and if the opinion he has formed is merely tentative, that is, if it is only such an opinion as any casual reader would necessarily form from reading news, and if he swears he will give the accused a fair trial according to the evidence, he should not be challengeable for cause, in our opinion.

We think our rule is excessive in its caution and is producing serious results. It has greatly weakened our defense against crime. In sensational crimes it is especially important that punishment shall be prompt, but it is in these crimes that justice is most handicapped by the rule and most retarded. We do not think it is essential to the protection of innocence, and we think it should be modified not only in order to make speedier trials but also in order to get better juries.

A GHASTLY ECHO OF THE FRANKS CASE.

The Montclair kidnapping and murder case will raise two questions in the minds of laymen, we think. The first is: How is it that a youth like Noel, once in the custody of experts in insanity, is discharged by them as cured? The other is: If Noel was so suggestible as to imitate the Franks case, would he not have been impressed by the execution of the criminal in that case?

As to the first question, we think the frequency of crimes committed by discharged lunatics ought to induce a stricter practice among the authorities in charge of insane asylums. Doubts, if there are any, ought not to be resolved in favor of the patient if there is a scientific reason to believe that the case may develop dangerous tendencies. Doubt should be resolved in favor of the safety of the public. Noel, we see now, never should have been at large. Either his case was mistakenly diagnosed or favor was given to periodic alcoholism; had hallucinations and delusions; was unstable with psychoneurotic symptoms. While legally responsible, he is mentally disordered.

No. 21 was a coxcomb individual who is sure that at the needs is a chance. Diagnosis: delinquent dementia praecox. Was helpless as a soldier, though he will get along well for some years there was a group of men unfitted for life, unequal to sustaining themselves even in army life, and yet not classifiable legally insane.

How to Keep Well. ♦♦♦
By Dr. W. A. Evans.

Questions pertinent to hygiene, sanitation, and prevention of disease, of matters of general interest will be answered in this column. Where space will not permit, or the subject is not suitable, letters will be personally answered, subject to proper limitations, and where a stamped, addressed envelope is inclosed, Dr. Evans will not make a diagnosis or prescribe for individual cases. Requests for such service cannot be answered.

(Copyright: 1925. By Dr. W. A. Evans.)

WHY MEN DESERT FROM THE ARMY.

M. EDGAR KING gives an analysis of the mental and character defects responsible for the desertion of some men (56) from the United States Army.

No. 20 was unstable; never developed regularity of habits; clearly psychopathic; inadequate personality, but not criminalistic.

No. 21 was always changeable, impulsive, restless, never satisfied; not criminally inclined; below average intellect.

No. 22 was below average in intelligence and a fugitive runaway; unstable emotionally; always without leave four times in 17 months.

No. 23 was of psychopathic makeup; given to periodic alcoholism; had hallucinations and delusions; was unstable with psychoneurotic symptoms. While legally responsible, he is mentally disordered.

No. 24 was a coxcomb individual who is sure that at the needs is a chance. Diagnosis: delinquent dementia praecox. Was helpless as a soldier, though he will get along well for some years there was a group of men unfitted for life, unequal to sustaining themselves even in army life, and yet not classifiable legally insane.

No. 25 was restless, of unstable temperament, below average in intelligence. No. 26 had frequent convulsions in childhood; was an incorrigible boy.

No. 29 was hobbies much; was once noted for burglary.

No. 30 was resentful, checks, stole automobile, and otherwise delinquent.

No. 31 was resentful and paranoid, verging on nondisciplinable type.

No. 32 was physically undeveloped; inadequate personality; inferior intelligence.

No. 34 Low average mentality, inadequate personality; petty thief; feeble-minded family.

No. 35 Plausible, but without character; has a psychopathic makeup.

No. 36 Unstable truant; arrested four times.

No. 37 Runaway; inadequate personality.

No. 39 Inadequate personality; thief.

No. 40 was an incorrigible youth.

No. 41 Probably a deep seated paranoid tendency.

No. 45 Psychopathic personality, paranoid in type.

No. 47 Unstable alcoholic.

No. 48 Paranoid makeup.

No. 49 Detrioration as the result of alcohol excesses.

No. 50 Genuine hobo; low average in-

In this study of about fifty deserters Dr. King found that about 80 per cent were of abnormal makeup, and that probably not one was found in the legal sense. Of the group only one or two had mental disease of a type generally called insanity, and about as many more were destined to end with some form of legal insanity. Outside of these four or five there was a group of men unfitted for life, unequal to sustaining themselves even in army life, and yet not classifiable legally insane.

If there are so many men with tendencies that unfit them for army life, how much larger must the number who cannot sustain themselves in the more difficult competitions of social, business, and domestic life?

LETUCE FILLS; DOESN'T FATTEN.

L. W. writes: I believe it was in your section that I read if a quarter of head of lettuce was eaten before each meal for two weeks, this would reduce one's weight.

What effect does the lettuce have—that of filling one so that less food is consumed, or does it contain something that reduces?

REPLY: I did not say "Just them words," but the saying is not mine.

Letter is filling but not fattening. If a person will fill up on lettuce before meals he is not so apt to fill up fattening foods. A better plan is to eat lettuce and a meal.

The lettuce itself has a reducing qualities.

IT IS USEFUL.

B. E. A. writes: Is nose bleed and spitting of blood common among women during the menstruation period? This happens to me every time. I am 17 and healthy as can be.

REPLY: It is.

FRIEND OF THE PEOPLE

Letters to this department must be signed with names and addresses of writers.

THE COP GETS ROUGH.

Chicago, Sept. 4.—(To the Legal Friend of the People.)—One day this week I was on my way to work and had a traveling companion. We were walking along the curb in one of the new police auto's drawn up to the curb and called to me to stop. He came up to me, and, in a rough manner, asked me what I had in my bag. I told him I had tools in it. He would not believe me but took the bag and opened it. Of course I was embarrassed because there were crowds of people around and I could not surely acted ugly. Had he the right to do this? C. E. S.

In our opinion this was a violation of your constitutional immunities.

TRIBUNE LAW DEPARTMENT.

SELLS HIS LICENSES.

Chicago, Sept. 4.—(To the Legal Friend of the People.)—On Aug. 26 I sold my car to a man who was driving to Detroit. In the sale I included the city

and state licenses, not knowing at the time that I was supposed to transfer these. When I learned of my mistake I tried to locate this person, but cannot find any record of accident in that car, could I be held liable?

2. What would you advise me to do?

E. F.

J. No.

2. The matter is of importance only if you wish to sell your automobile in which case you should take up the matter with the secretary of state, Springfield, Ill.

TRIBUNE LAW DEPARTMENT.

COUNTY OFFICES.

Chicago, Sept. 4.—(To the Legal Friend of the People.)—Is there any law in effect which prohibits a person from holding the office of county treasurer or holding for two consecutive terms or more?

S. M.

Yes. See Sec. 8 of article 1 of the state constitution.

TRIBUNE LAW DEPARTMENT.

SELLS HIS LICENSES.

Chicago, Sept. 4.—(To the Legal Friend of the People.)—Is there any law in effect which prohibits a person from holding the office of county treasurer or holding for two consecutive terms or more?

S. M.

Yes. See Sec. 8 of article 1 of the state constitution.

TRIBUNE LAW DEPARTMENT.

FACTORY DISTRICT.

Chicago, Sept. 4.—Plans have been made to erect large houses on the ridge for the lace makers who are to come from France.

CHICAGO.—William Jennings Bryan, an escort by the Cook County Democratic, and with Mayor Harrison and his Chicago adherents as a bodyguard, will descend on Milwaukee to-day to open the campaign in Wisconsin and the manner of opening it will be a mammoth picnic at which no less than 20,000 persons are expected to be present.

The 10th anniversary of the Democratic convention will be celebrated by a procession of 100,000 persons.

WASHINGON.—A dispatch from the Associated Press says that Gen. Schmitz, the chief of police, has been appointed to command the 10th anniversary of the Democratic convention.

The 10th anniversary of the Democratic convention will be celebrated by a procession of 100,000 persons.

and address. Voice of the People.

DEPARTMENT OF
INTEREST IN WATER
METERS.

Sept. 3.—In all of the discussions which has appeared recently regarding the metering of water in Chicago, practically nothing has been said as to the purpose of the measure. It is the diversion for domestic industrial purposes of the neighbors of 1,000 to 1,500 cubic feet per second. The installation of meters may this by about 500 cubic feet per second, which in comparison with the 1,000 cubic feet per second of diversion of the Chicago river is insignificant. The cost of the water department, more not in effecting a small saving in amount pumping, but in the lake water in the sewage disposal problem which in turn involves the amount of water used for domestic and industrial purposes.

A small portion of Chicago's sewage may be directly discharged into the lake because of the pollution Illinois river which it traverses. It must be noted, however, that the drainage and pumping process is a very costly one, the cost is roughly proportionate to the amount of water which must be treated with the sewage; hence the expense of reducing so far as possible the total water consumption of the city.

SEWAGE TREATMENT
WORKS FOR THE RIVER,
Sept. 5.—Adams street has been closed in order to build a new bridge over the river. It is estimated that the street will be closed fifteen days and that the bridge will cost a million dollars.

After the bridge is completed, in the continuous expense of the river, which must be high, out of portion of the building, the expense of the river for which it is not much better all around. Our great lake front by piers to accommodate vessels of all sizes instead of having them towed over with a tug boat before and behind, often getting stranded in the tunnels?

Building of piers on our spacious lake front improved in this way the river would cease to be of interest except for drainage purposes, which it would serve just as well as uncovered. So by treating and building a wide thoroughfare its entire length, we would not have loop congestion and do away with delays caused by the opening and closing of bridges, but we at the same time make our city undivided and would certainly its beauty.

F. J. McINTYRE.

OPERA MOZART AND WAGNER,
Sept. 5.—The Chicago Civic Company has announced that in the coming season revival of old operas and new operas will be sung. The director is considering Mozart's Giovanni, Marriage of Figaro, Magic Flute, and Wagner's in, Parsifal, Tannhäuser, and die.

It was disappointing when conductor was given among all the operas. We are just starting Mozart's heavenly music and a stupendous work. Why not Rigoletto, Traviata, Lucia, Trovatore, for a little while and present some of the great operas that I have mentioned?

DAVID FONSECA.

HATLERS,
Sept. 5.—It has been a matter of conversation with the writer that many college customs which appear at first are based on common sense and are taken up by the herd later. The campus boys taught it was unnecessary to wear vest leather and have been responsible introduction of low, soft collars for clothing innovations which the comfort of the race. Nine students?

CHARLES C. GRANT.

Chicago's September visitors are invited to use every convenience this store provides—travel and information service, theater ticket offices, rest rooms, tea rooms. Guides will be furnished for store tours. For gifts to take back home, the Gift Secretary, second floor, will be very helpful. The September Sales of necessities for the house and the individual, and the new things arriving daily in every section are especially interesting.

Adroit Flares Animate the Autumn Gowns

You will find the newer Gowns decidedly more graceful and not a whit less slender because of their deftly managed flares. The front of the Dress pictured, for instance, flutters as you move about since its apron effect is of separate, shirred panels embroidered in contrasting colors. Of black, bluejay or navy crepe du jour, \$85.

Many other autumn costumes as charming are now in the section.

Tendencies in New Fall Drapery Fabrics Are Toward Bizarre Color Blending and Patterns

SEPTEMBER finds practically all the latest designs in Drapery Fabrics here and ready for you to select. Two-toned color combinations, many reds and blacks, large figures and brilliant colorings are new Drapery tendencies. Some fabrics are coarse and hand blocked effects are still popular, as are stripes. Listed below are materials in which many interesting new patterns and colors are displayed:

For Steamer and Motor, Coats of Imported Wools

There's a look of easy comfort about these Coats of imported tweeds and novelty wools, decidedly appealing for long autumn drives or for ocean trips. The one of wee checks in purple and black or tan and brown has a dyed kit fox collar. The other of imported tweed has the new flare collar pointed at the back, of blending fur. And there are many other equally attractive models.

Women's Coats, Sixth Floor, North, State

Ensemble Suits Combine Smartest Autumn Fabrics

A long tweed Coat tops a jersey frock—both very good this season—as in the Suit at right. Other recent notes shown in this Suit are the gold kid piping, side plait and high neck of the frock. In blue, henna, gray, and brown, \$87.50. Another combination is the bolivia coat with its high collar of dyed squirrel, bolivia faced, and a crepe frock, self embroidered. In mulberry, redwood, brown, black, \$97.50.

Women's Suits, Sixth Floor, South, State

Jersey Sports Frocks Accentuate Youth

Jersey is indeed a fabric closely allied with youth, for its comfortable elasticity allows much vigorous exercise. At right is a two-piece with the clever zipper front fastening. Tan, rust, green, gray and blue, \$32.50. The other, attractively trimmed with silver buckles, in hawberry, strawberry, and fern, \$27.50.

Chamoisuede Gloves, 12 and 16-button, \$1

These Gloves are splendid values—the chamoisuede delightfully soft, the workmanship excellent and the colors just what you will want for fall costumes. With embroidered backs, in tones of beige or gray, black or white, \$1.

Elmer Finds Three Nearby Radios Silent

Congratulates Them for Joining Quiet Group.

BY ELMER DOUGLASS.

All things change—even among radio stations. Undoubtedly the most important news on last night's silent night was the absolute irresponsiveness of the dials to three long-familiar stations in their locations: WCBF, Zion, WPAF, Elgin, and WJJD, Mooseheart, were SILENT!

There would seem to be a sacrifice involved by WCBF and WLS merit-ing special recognition, for to make this change WLS henceforth will be silent on Tuesday nights so that WCBF may be on the air on Tuesday nights.

The writer has a deep hunch that WHT, Deerfield, will soon be declar-ing Monday night holidays during the winter. WORD, Batavia, interferes with other stations at this receiving point and they may change to be silent. WOF, Homewood, also be- longs on the "silent" list.

The reception of distant stations last night was fair, as was the quality and interest of the programs.

The surprise of the evening for this dial twirler was WBB, Boston-Springfield. Times were perfect, alternating winter-receiving conditions, and with a vocal and instrumental program of interest and worth.

WDKA, Pittsburgh, had a special program at 8:30 p. m. of the national holiday of the Brazilian repub-lic. The music was furnished by the Westinghouse band, with Edith Palmer, contralto, as soloist. Announcements were given in English and Portuguese. Preceding the playing of the "American Patrol," it was stated that this will bring out our South American friends in the musical airs of this country. Ordinarily, however, the announcing at this station is too detailed, cold, and a bit tiresome.

WLW, Cincinnati ("ee," came in weak and muddled. WSAI, Cincinnati (the more common pronunciation), strong, but none too clear. WWT, De- troit, clear but not clear. I am not to say it is weak. A battery about one foot east of my set! WAP, Fort Worth, came in quite nicely. After 10 o'clock WCAE, Pittsburgh, loomed up clearly, but with no kick either in the signal strength nor in the quality of the program.

WVLE, mostly around the old time 2000, working at 1040, wondering if WJJD would come on the air, a slight signal was detected a slight notch below the VFTAS-WJJD 203 meter length. Turning on more power—"WPG, Atlantic City, N. J."

That's near where our east begins, and this is exactly where we stop.

COLOMBIA OPENS FIRE ON STANDARD OIL CONCESSION

(Chicago Tribune Press Service.)

BOGOTA, Colombia, Sept. 7.—The concession for an oil pipe line 250 miles long, from Cartagena to the Tropical Oil company of Bermeja, a Standard Oil company affiliation, given to the Andean National corporation without the consent of congress and now under construction, has been protested before congress by the opposition committee. The report, published in the press here, reflects upon the government officials and their co-adjustors and does not hold the Andean officials to blame, as they were acting within their rights for the cause of a great public benefit. The press demands that this and future concessions to foreign companies should be protected from venomous attacks.

East Side Gang War Results in Murder

New York, Sept. 7.—(UPI)—Warfare between rival east side gangsters took toll of another life today when Frank Giffredo, known to the police as "Eleven Fliners," was shot to death from a car. Giffredo, was sus-pected of being drug peddler and the police believe he incurred the hostility of rival drug peddling gangs.

(Tuesday, Sept. 8.)

RADIO PROGRAMS FOR TODAY

(Daylight saving time throughout)

On W-G-N Program

"IN OLD HEIDELBERG WITH THE STUDENT PRINCE," a W-G-N radio production telling the story of a prince's love for an innkeeper's daughter, and set amid scenes at the old University of Heidelberg, with its singing, marching students, is to be presented at 8:30 p. m. this evening on The Chicago Tribune radio station on the Drake hotel. The famous drinking and marching songs of the students' corps at Heidelberg and beautiful numbers like "The Students' Serenade" are heard in this musical novelty.

The W-G-N radio production company, which is presenting "In Old Heidelberg with the Student Prince," is composed of Miss Kathleen Ryan, contralto; Miss Marie Sweet, soprano; Paul Mallory and Watt Webber, tenors; Walter Stevenson, basso, and Frank Bennett, baritone. Miss Edith Sackett is the accompanist.

Maurie Blumenthal and his Drake hotel dance orchestra will be heard in two groups of snappy numbers during the 8:30 to 11:30 p. m. session.

A representative of the National Kingergarten and Elementary college is to conduct Sixesix time for the children at 5:30 p. m.

Featuring tomorrow night's 8:30 hour of music will be the Chicago Lyric trio, consisting of Catherine White, soprano; Carolyn Quackenbush, mezzo-soprano, and Hilda Grossman, contralto.

DETAILS OF TODAY'S W-G-N PROGRAM
(WAVE LENGTH, 370 METERS.)

12:30 to 2:30 p. m.—Luncheon concert by the Drake hotel ensemble and the Blackstone string quintet.

2:30 p. m.—Rocking chair time, featuring the "Gentleman's Lullaby" and Liberty.

5:30 p. m.—Music time for the children by a representative of the National Kingergarten and Elementary college.

6:20 p. m.—Closing stock quotations by Paul H. Davis & Co.

6:30 to 9:30 p. m.—Old Heidelberg with the Student Prince, a W-G-N radio production.

10:30 to 11:30 p. m.—Jazz scamper: Maurie Blumenthal and the Drake hotel dance orchestra.

RENE VIVIANI, FORMER FRENCH PREMIER, DIES

War Leader Was France's
Silver Tongued Orator.

(Picture on back page.)

(Chicago Tribune Press Service.)

[Copyright: 1925, by The Chicago Tribune.]

PARIS, Sept. 7.—Rene Viviani, who was premier of France when the war started, died this morning at Malmaison sanatorium, where he was taken two years ago after a mental collapse. The breakdown was largely the result of the death of his wife a short while before.

Mr. Viviani became premier in June, 1919, and was at Petrograd with President Poincaré when the war clouds began to gather. The two rushed back to France and it was Mr. Viviani who, several days later, signed the decree of mobilization, and upon the advice of M. Jaurès, the great French socialist, issued orders to assassinate soon afterward, he ordered the troops along the French frontier to retire ten kilometers to show the pacific intentions of France.

Succeeded by Briand.

In October, 1915, M. Viviani was succeeded by the Briand ministry, in which he became minister of justice. M. Ribot succeeded M. Briand in March, 1917, and M. Viviani remained minister of justice until M. Ribot fell in September of that year.

He visited America with Gen. Joffre in 1917, greatly impressing America with his powerful oratory. In 1921 he accompanied M. Briand to the Washington disarmament conference.

He was premier three times and minister five times, and was one of the most vivid and colorful orators France ever produced.

Attacked Church Bitterly.

He made one of his greatest speeches as premier in 1919 in defense of the separation of the church and the state twenty-five years ago. He attacked the church for monopolizing religion, saying the church even "tore the stars from the sky."

He was born in Algeria sixty-two years ago, and had been a lawyer, editor and politician most of his life.

HIS HEART FAILS WHILE HE FISHES.

While fishing on the breakwater at the mouth of the river yesterday, William Topel, 50 years old, 4509 Emerald avenue, died of heart disease.

JOB R. FURMAN, WHO BOSSED BUILDING OF UNION STATION, DIES

Job Rockfield Furman, who as chief engineer for Graham, Anderson, Probst & White, architects, superintended the building of Chicago's new Union station, died yesterday at the Presbyterian hospital after an illness of three days. He was 60 years old and lived at 4848 University avenue.

Funeral services will be held this morning at 10 a. m. at church, 1029 South Michigan avenue. The body will be taken to New York for burial.

Mr. Furman was graduated from the Stevens Institute of Technology in New Jersey in 1885 and joined Otis Bros. & Co., elevator makers, as chief engineer. In 1888 he installed elevators in the Eiffel tower in Paris, and in 1898 placed lifts in the London Stock exchange.

He returned to the United States in 1910 and joined the Chicago firm of Daniel H. Burnham & Co., remaining with Graham, Anderson, Probst & White, who succeeded the former firm.

Mr. Furman was survived by three brothers and two sisters, all of New York. He was a member of the Engineers' club here and a member of the Engineers' club of New York.

Hold Funeral Services Tomorrow for Mrs. Carr

DAILEY—James M. Carr, 60, memory of my beloved husband, anniversary high mass at 8 o'clock at St. James church, Wednesday, Sept. 8.

WIRTA—Hanna Jakkonen Wirta. In loving memory of our dear mother and my beloved sister who passed away Sept. 8, 1924.

COLLINS—Charles H. Collins, at residence, 838 Lawrence, beloved father of Jack, his wife, Mary A. Wirta, and SISTER MARIE DAIRSON.

AHERN—John J. Aher, son of the late John and Margaret, nee Reidy; brother of Mrs. P. J. Aher, Mrs. Daniel Aher, Mrs. John J. Aher, John H. Pasmore, clerk of the Criminal court; William Busse, county commissioner, and Edward J. Brundage, former attorney general.

BUSSE vs. CERMAK?

Among the more persistent gossip

of the political side of the gathering

was a story that William Busse will

be a candidate for president of the

county board. Anton J. Cermak, pres-

ent Democratic member of the board, is

expected to be a candidate for reelec-

tion.

Sheriff Hoffman was busy putting

children on the head. Political friends

said Mr. Hoffman will be a sure entry

for county treasurer.

ONE MAY DIE FROM STARVING.

LaPorte, Ind., Sept. 7.—[Special.]—Fred Smith, 40, is in hospital, here, possibly

starved to death. William Green, 27, is

in jail, as the result of a stabbing affray

today over alleged mistreatment of Green's

wife by Smith.

WIDE LOOM Chenille Carpeting \$9.50 Square Yard

THE deep pile and heavy texture of these rugs makes them a rich foundation for other furnishings. The heavy wool back gives them a substantial wearing quality and enriches the appearance as well.

Tete de negre, fawn and walnut brown are the colors from which to choose. In widths of 13½ feet and 15 feet. \$9.50 square yard.

BRIEF SPEECHES, MANY CONTESTS AT G. O. P. PICNIC

So Thousands Hail Affair
as Success.

Fifty thousand persons are estimated to have attended the north side Republican picnic yesterday at Riverview park.

The speakers were limited to three minutes each. The multitude was out to enjoy the day, and Thomas O. Wallace, master of ceremonies, decided that the political aspirants must be brief.

Crowd Shows Interest.

The thousands appeared to be more interested in the selection of "the most bald headed man on the grounds" than in anything political. The crowd was delighted with the contests, and the speakers were not unmindful of them. One wanted to see the girl with the reddest hair. The parade of the handsome widow was a highly attractive stunt. And so it was with nearly all the 66 contests for cash prizes of more than \$1,000 and other articles costing more.

Among the speakers were Tom Murray, county commissioner; Dr. C. H. Hoffman, Assessor; Charles Ringer, John H. Pasmore, clerk of the Criminal court; William Busse, county commissioner, and Edward J. Brundage, former attorney general.

DAILEY—James M. Carr, 60, memory of my beloved husband, anniversary high mass at 8 o'clock at St. James church, Wednesday, Sept. 8.

WIRTA—Hanna Jakkonen Wirta. In loving memory of our dear mother and my beloved sister who passed away Sept. 8, 1924.

ILLINOIS RANKS HIGH IN PRISON REFORM SCALE

But Low in Record of the Prisoners Who Escape.

This is the fifth of a series of articles upon methods, experiments and tendencies in penology in the middle west. Illinois' great prison camp at Joliet is viewed here in the light of observations in four other state prisons. In industrial activities, in discipline among officers and inmates, in record of escapes, Illinois has dropped behind these other states. In humanitarian treatment of prisoners, in progress toward individualization as the new science of prison reform, this state stands with Michigan, ahead of the others.

BY PHILIP KINSLEY.

Joliet, Ill., Sept. 7.—[Special.]—Illinois' penal slaves are mixing concrete and carrying stones to build a new tomb for their fellows and for themselves. There seems to be no other way except more walls and more cells. Michigan is doing the same. Wisconsin is crying for more and better cells.

Upon the prairie west of the city, six miles from the old gray prison that sits by the highway where the world rolls on by wheels, at the cost of \$6,000,000, the last word in state prisons is rising year after year. It is unlovely from a distance, something like a great Wyoming tank farm behind a mile and a quarter of walls.

Circular cellhouses, circular dining room, new experiments in prison architecture, lift their blunt turrets against the evening sky.

Prisoners Build Own House.

Through a temporary wooden gate, over rough fields where piles of lumber and material are waiting, into the administration building, which is nearly complete. Here one finds a sunny, deserted hospital, wardens' office, visitors' room, and a long covered way leading to the fields where the prisoners are busy with lumber, terra cotta, mortar, and steel. Some have learned these trades in prison. Plenty of work now, while the prison commission has withdrawn its labor and left the prisoners to build their own house.

Along the covered way Deputy Warden Peter M. Klein points out a peeling, discolored ceiling. "Contract work," he says. "Ahead is a fine clean piece of work." "Prisoners did that," he explains. The prisoners are doing better work than ever. The contractors were here, he says, and added, "With man is saving the state a huge pay roll, something like \$15,000 a month. He displays proudly a machine invent-

HANEY STANDS PAT ON REFUSAL TO QUIT SHIPPING BOARD JOB

Washington, D. C., Sept. 7.—[Special.]—Commissioner Bert H. Hane, the shipping board controller, is standing on his refusal to resign as requested by President Coolidge.

Although Mr. Hane explained to the President why he would not resign, it is reported that he may not be asked to resign as a result. Mr. L. C. Palmer, president of the Fleet Corporation, has heard nothing further from the President.

Unless the President decides to take summary action in the meantime, it is reported, as a result of which, Mr. Hane's recent appointment will not be allowed to expire when Congress meets in December. The President will nominate some one in sympathy with the administration's policy.

ed by a prisoner to straighten old

The shoe shop is the only one in operation in the new prison. At one afternoon hour the men are idle, standing in groups talking quietly. Such a group would be found among the prison officials of Minnesota, Indiana, and Wisconsin. It is explained that the men have finished their easy quotas for the day and there is nothing for them to do.

Loeb Checks Shoe Output.

In a glass office, open to the corridor and the shoe shop, is the desk where Richard Loeb usually sits checking the shoe output. He is not there now. He is considered a smart prisoner. As to Leopold, they shake their heads. He is miles away in the yard of the old prison, shoveling coal, perhaps, although visitors are told that he is in the chair factory. They think some-

thing may be wrong with his mind.

It's 8:30 o'clock. Clang! goes the first supper bell. The men pour into the washrooms. A huge shower room is provided. A second bell sends them into the dining room, pride of the warden. Room for a thousand here, with clean, stone-topped tables, comfortable booths, electric lighting, to please the men, carry plates and receive hot food; an airy, light, and cheerful place. Upon a platform sounding board under the ceiling, services are held and noonday entertainments, such as a group of singers from a theater.

Difference in Cell Homes.

After supper the men go to their new cell homes. It is only necessary to go to the old prison downtown to see the great change in prison comfort and health. In those narrow, dark old cell rows there is barely room for a man to move around. The odor of the old bucket system pervades the place. Here each man marches to his glass and steel home, where the name is written above the door, and enters a cell at the turn of a lever from a central control in the tower that rises in the center of the cellhouse, where the single guard sits. Ten and a half feet long, 6 feet and eight inches wide, with lavatory, toilet, hot and cold water, electric light, radiator, table, cot, shelf, books, tobacco. There are two to a cell now in the new houses built for 248 men. One bunk is placed on top of the other.

It's 9:30 o'clock. A button is pressed and out go the lights in all the cells.

They are getting along well with the neighbors, headmen, the warden says. They play baseball with outside teams. They have friends and visitors on Sunday afternoons. They have their

club room where they gather in the evening to read and play cards. They have plays and dances and music. The warden and his wife come over and talk.

All the other states are doing the same thing. It remains a master of selection. It takes three years of probationary period and many tests before one gets out on the Illinois honor farm, Mr. Whitman explains. Teddy Webb had been there three years before his melodramatic criminal comedy was over. He is now 25 years old, and of those turned loose now make good in the world. For the better protection of society, he says, the system will stand. With trade schools and better labor opportunities, this percentage may be increased.

Work on Prison Farm.

Around these walls stretch the miles of prison farm, manned by prison labor under the honor system. The men live at a central camp and are under one keeper. They may be seen

on any afternoon working on these wide acres, in groups without any

guards, in vegetable gardens, along

the walls of the fields that stretch

away over the hills and never come back.

They may hide in a cornfield and escape.

There are about 15 escapes a year, Warden Whitman admits reluctantly. He explains that even with this

the system is worth while, as about

200 men a year are sent out in this

year.

"Things will happen," says Mr.

Worst Type of Criminal.

Lack of discipline among the guards, lax discipline among the inmates, who

are held, the escaped average 25 a year.

It is a gamble on the part of the warden. It can only be tested by percentages and Illinois is far too high.

Four or five a year get away for good.

In the whole prison, where 2,500 men are held, the escaped average is 25 a year.

"We are determined to make today the biggest day of our entire business career, and this is how we are going to do it: All our garments—regularly low priced—have been again radically cut in price to a new level of value-giving. Think what this means! Miller-made Fur—modeled after brilliant Parisian creations—at prices so extremely low as to astound other furriers. SALE STARTS TODAY at 9 A. M.

DIVORCE RECORD IN COOK COUNTY HIGHEST IN U. S.

Only Six States Have a Greater Number.

BY OSCAR HEWITT.

More divorces are granted in Cook county than in any other county in the nation. With two exceptions are twice as many divorces granted in Cook than in any other county in any state. One exception is Wayne county, Michigan, in which Detroit is located. Los Angeles county ranks third; Cuyahoga county, Ohio, in which Cleveland is situated, ranks fourth, and St. Louis fifth. Otherwise Cook county grants three times as many divorces as any other county in the nation.

Six States Have Higher Record.

Thomas O. Wallace, clerk, reports that the local circuit court alone granted 1,223 divorces in 1924, and by any one of 31 states. Indeed, there are only six states in which more divorces are granted annually than in the courts of Cook county. The basis of the above comparisons is the number of divorces granted last year in Cook county as contrasted with those granted elsewhere in 1924, according to a recent report of the federal government.

But dropping back to direct comparison for 1923 in all sections of the country, Illinois is only surpassed by Texas in the number of divorces, and Cook county has a larger number than any state except Pennsylvania, Ohio, Indiana, Michigan, Missouri, Texas, and California.

Grants 7,000 a Year.

Cook county grants twice as many divorces as any other state in the whole state of Massachusetts, Alabama, or Washington, nearly twice as many as in Kansas or Arkansas, 90 per cent more than in New York, Iowa, Kentucky, or Tennessee, and a seventh more than in Oklahoma.

Cook county grants more than 7,000 divorces a year. In 1924 the whole state of Pennsylvania had only 7,542; Ohio, 11,402; Indiana, 7,402; Michigan, 6,692; Missouri, 9,116; Texas, 14,632, and California, 9,227. All other states granted a smaller number than Cook county.

Geographic Rates Vary.

These comparisons refer only to total numbers without references to the population served. A more direct and fairer comparison would be the number of divorces per 100,000 of total population, nevertheless, the figures population. There is a wide variation among the states of the geographic divisions. Commenting upon the va-

liff must have been a resident of the state when the offense was committed and also when the action was commenced; or when the offense was committed in the state, the plaintiff must have been a resident when the action was commenced.

Liberal Policy in Nevada.

"In Nevada, however, only six months' residence was necessary before bringing suit for divorce for a cause occurring outside of the county. In New York a decree for divorce did not entitle to interlocutory judgment; and then the defendant could not remarry again during the lifetime of the complainant unless the court modified the judgment after three years on proof of good conduct. In Nevada, on the other hand, the decree was prompt and final, and either party might remarry if one could establish differences in law. It is evident that Nevada was more attractive than New York to persons migrating for the purpose of securing divorce."

South Carolina has swum farther than New York in divorce matters. That southern state repealed all laws permitting divorces in 1878.

50,000 Berlin Renters May Unite to Fight Eviction

(Copyright, 1925, by The New York Times.)

BERLIN, Sept. 7.—Berlin landlords

requesting the courts to evict 50,000

families from their homes for nonpay-

ment of rent now face the possibility

of the tenants forming a union and

refusing either to pay rent or to leave

their homes even on the order of a

judge. Though present rents are only

88 per cent of the pre-war rate, the

earning power of certain classes, espe-

cially the intellectuals, is far below

that of 1914. But property taxes are

enormous.

Illinois Rate 42.3.

The rate in Illinois was 42.3. That was surpassed by the following states:

Ohio, Indiana, Michigan, Missouri,

Kansas, Kentucky, Florida, Tennessee,

Arkansas, Oklahoma, Texas, Montana,

Wyoming, Arizona, Nevada, Washing-

ton, Oregon, and California.

Continuing the government says:

"The rate per 100,000 of married popu-

lation varied from 65 in the District

of Columbia, and 97 in New York to

3,299 in Nevada."

Steel Files

Commercial grade

Buy standard cabinets now for immediate require-

ments and expand as needed. Real value at a

moderate price for all-around commercial use.

Capacity Each drawer will accommodate at least 5,000 let-

ters with folders and guides.

Ease of Operation Progressive suspension arms permit drawer being

pushed out completely clear of the cabinet. Drawers travel easily on solid steel rollers, even when loaded.

Strength Spot-welded construction makes each file a solid

unit. Failure of any part to operate under heaviest load is practically impossible.

Finish Choice of olive green enamel, or oak or mahogany finish. Hardware fittings are pressed brass.

Horder Service Horder filing specialists will make an expert sur-

vey of your requirements and recommend the best

system—without obligation. Perhaps they can

change to your advantage what now seems a satis-

factory filing system.

BRITISH FIRE ON SHANGHAI CROWD 3 CHINESE HURT

Diagram showing
location of
Franklin Street
Garage.

2,000 Demonstrants Fell
an American.

BY JOHN POWELL.

[Chicago Tribune Press Service.]

SHANGHAI, Sept. 7.—C. Elrod of Atlanta, Ga., an employee of the Shanghai municipal council, was severely wounded, and a Britisher was also wounded and three Chinese shot in repeated rioting tonight in the international settlement.

The trouble started when a mob of Chinese laborers formed in the native city for the purpose of making a demonstration on the question of the unequal treaties, and then tried to march through the international settlement.

Use Bricks on Them.

The procession marched through the French Concession, but when they were stopped by police of the international settlement, they retaliated with bricks, cobble stones and bamboo poles, making it necessary for the police to fire, wounding three Chinese. The rioting occurred next door to the municipal building in the contested district. The mob was estimated at between 2,000 and 3,000. It is thought that the strike was started for the purpose of renewing the agitation here, which has been dying down recently owing to the return of the strikers to their jobs with the British industries.

About 5,000 laborers in the municipal power plant refused to do their jobs today, enabling the reorganization of the Chinese and Japanese cotton mills, but the strikers still refuse to return to the British mills and ships despite the recent British friendly gestures in offering the Chinese representation in the municipal council and mixed court.

Six U. S. Gunboats.

The construction corps of the United States navy will arrive at Shanghai tomorrow to start the construction of six gunboats for use by the navy upper Yangtze patrol by an appropriation of \$6,000,000 authorized by the last congress.

Four American sailors were killed and three wounded by the bursting of the generator of the United States destroyer *Nash* off the coast. The accident happened while the *Nash* was returning from a town on the coast where it was giving service to the Chinese ship *Faiching*, which was beached a few days ago. Help was given the *Nash* by the Admiral liner *President Grant* upon its entrance into Shanghai harbor.

When business requires you to park for several hours find this garage you can park 3 full—four hours for

EUROPE'S LABOR UNIONS CUT IN HALF SINCE 1919

British Leader Asks Militant Program.

[Chicago Tribune Press Service.]

COPENHAGEN, Sept. 7.—The workers' congress meeting in Copenhagen is receiving pessimistic reports regarding the progress of the movement. Statistics presented show that the trade unions in Europe possessed 25,000,000 members in 1919, and only 12,000,000 in 1924. Many losses have occurred in the six-hour day movement since 1918 in various countries. Politically, the workmen are much

weaker, as many governments hitherto democratic are now conservative. The Dutch union leader, Herr Flimmen, declared that the bottom had been reached and that the workmen would fight again for their rights. The trade union men do not care for political leaders, distrusting parliamentary methods.

May Out Ramsay MacDonald.

[Chicago Tribune Press Service.]

LONDON, Sept. 7.—The British trade union congress opened at Scarborough today, with 700 delegates, mostly from the United States, Russia, Poland, Mexico, and Canada, representing more than 4,000,000 trade unionists. Calm work in the opening session of the congress, which faces the possibility of a split between the congress and the Labor party, which may oust Ramsay MacDonald from the leadership of the laborites.

A. B. Swales, president of the congress, in his opening address, steered

for a middle course, not placing himself either in the right or left wing. Ramsay MacDonald, about whom the battle of the moderates and extremists of the labor movement is expected to rage this week, did not attend the opening session. The former Labor prime minister just has finished the week end as a guest of the king and queen at Balmoral castle.

Mr. Swales' speech was conservative, but he issued a warning that "a limit has been reached in the concessions the unions can be forced to make. A strong, determined, and uncompromising policy is the only policy that will unify, consolidate, and inspire our rank and file." Mr. Swales urged that pressure be brought on the British government to cultivate Russian trade.

WOMAN HURT CLIMBING MOUNTAIN.

Boulder, Colo., Sept. 7.—Mrs. Dorothy Wright suffered from injuries received in a fall while mountain climbing.

Always Refined

It is told of Theodore Roosevelt, that when asked by a newspaper photographer to pose in friendly handclasp with a man whom he had just forgiven for slandering him, he said, "Young man, remember the thirteenth commandment, 'Thou shalt not slop over'."

And this commandment, all cultured people know, applies most certainly to matters of style and dress. It is remembered always in the conservative, refined designing of the styles of Almer Coe glasses.

They Take a Big Load off the Student's Mind

And Keep the Teachers in Good Humor

Sometimes, we'll admit, it requires four years of exposure to well-informed circles to learn that the Parker Duofold is the pen and pencil that one should have bought the first day he entered school.

Or again, one can learn in four minutes from the upper classmen that Parker Duofold is so universally used by the student bodies that its lacquer-red and black combination has become the Inter-scholastic colors, as it were.

And just insofar as Parker Duofold improves one's handwriting, it makes easier the in-

structors' task of reading the student's papers (and grading them, too, don't forget).

You can thus see that the Parker Duofold is influential in helping a fellow or a girl get the kind of marks that are cheering to all concerned.

Pen with Hand-size Grip, Over-size Ink Capacity, Free-swinging balance, 25-year Point and the black-tipped lacquer-red color, so handsome to carry and hard to mislay.

Good pen counters wouldn't be without it. Stop at the nearest one and choose your point—Extra-fine, Fine, Medium, Broad, Stub or Oblique.

Georgian Bedroom Suite, \$3,580

Regularly \$5,370

The dresser at the right is from a beautiful carved and decorated walnut suite in a Georgian design. The figured rosewood panels produce a very striking effect. The set includes twin beds, dresser, toilet table, chiffonier, chair, stand, and bench.

Jacobeian Dining Set
8 Pieces, \$326

A modern interpretation of the Jacobean style in walnut. This large sideboard is almost an exact reproduction of an antique and the other pieces are built around it. 72-inch sideboard, extension table, five chairs and an arm chair. The cabinet is \$74 and the server \$50.

Governor Winthrop Desk
\$115

We had this Governor Winthrop desk made especially for our own trade, and it is the finest desk of this style that we have ever before offered. The interior arrangement is very elaborate and it is beautifully decorated with figured mahogany. Such a desk would sell regularly for \$160. We also have a desk of this style for \$87.

Tables Radically Reduced

A collection of davenport tables, end tables, and odd living room tables has been assembled on our third floor and marked at half-price for quick selling. There is great variety and a wide range of prices. In many cases there is only one of each.

Reductions in Oriental Rugs

A large variety of fine rugs is being offered in this sale at savings of 10 to 35 per cent. Our collection is made up of rugs that are carefully selected by expert buyers. The following list is representative:

	Size	Regular Price	Reduced to	Size	Regular Price	Reduced to

LEADER OF BREAK FROM JUVENILE HOME IS JAILED

Youth Seized with Gun as
Attempt Fails.

Sylvester Skoronski, at 16 an auto-theft, a gun toter, and a graduate of the reform schools, was seized by the Marquette police station last night. His attempt to lead a mob of boys out of the Juvenile detention home in the early hours of yesterday had come perilously near to success.

Bringing a pistol past the juvenile gates, Sylvester used it to good advantage for a while, but a turn for the wrong exit led his plans astray. The youth had been sentent to the St. Charles school for boys for auto theft. He escaped, was caught and was returned to the detention home pending his transfer. During his freedom he had bought a gun somehow, and after his arrest managed to hide it.

Schemed to Aid Brother.

Dr. H. A. Dobbs, superintendent of the institution, declared Sylvester schemed to free the boys there because he had heard of his brother's imprisonment there. But the brother, Tony Skoronski, had already been transferred to St. Charles.

When Sylvester entered the detention home he begged permission to get a drink of water, and while he was in the washroom secreted his gun. The regular search of all the new prisoners followed.

Later Sunday night, the hour set in

the boys' plans for escape, Skoronski got his revolver, and when the dormitory guard, Charles Martinek, neared,

he fled.

He was captured.

LABOR STAGES AL AND HYLAN TRUCE FOR DAY

On Same Platform, They
Avoid Political Rancor.

(Continued from first page.)

is all except Mr. Hylan, who had come down to earth from his study of the empire and had tardily arisen, though he did not applaud.

Mayor Is Armer Clad.

Now the mayor is presented. An ampler figure than the governor, bearing all grimness and unrelied gravity, you mark him at once for a soldier from the fight, and apparently he has been bivouacking on the battlefield. His buttoned dark gray suit coat is wrinkled, his trousers baggy, his sparsely ruffled hair is rumpled, his naturally reddish face is pale, and his severely cropped sandy mustache adds to the grimness of his aspect. Tired blue eyes peer through rose glasses. All on the platform rise, the governor with a quizzical smile going in the applause.

Mr. Hylan clutches a coat lapel with his left hand, leaving his right free for a long, sweeping gesture, and, after referring to his engineer's card, begins by recalling the pitiful plight of labor in New York City up to 1918, which happens to have been the year he was elected mayor the first time.

Hylan's Labor Record—By Himself.

He found the city, he said, some \$75,000 behind in the construction of school buildings, all because under the Gary school plan the aim was to limit the education of workingmen's children to be workingmen only. The "inter-

ests" had decreed that workingmen's children should be denied education for "the higher walks of life," because if the children were educated, there would be nobody to do common labor."

In conformity with the rule of non-partisanship, the mayor contegated himself with merely stating that all that had been changed in the last seven years. More school buildings had been put up and more pupils seats provided than under all the previous mayors for two years.

"But workingmen should beware," thundered the mayor, somewhat hoarsely, "of those with sinister purposes scheming to undermine the great progress labor has made and is making."

Hits Brake Just in Time.

It looked as if the mayor were about to cast nonpartisanship to the winds and go after the trade unionists, but he did not do it. There was an uneasy stir among the sponsors of the meeting. Mr. Hylan evidently sensed the situation and desisted, quickly concluding with a fervent assertion that he always had sincerely supported and promoted the cause of labor. He then turned to speak as a reply to the labor leaders who have gone over to Walker accusing Hylan of opposition to the payment

of union scale wages in the city employ.

Next came Walker, a tall, slim, dark, dapper young man with brown hair, brown eyes, a thin face, a long, pointed nose, and an infectious grin. He is light on his feet and as he speaks his hands, in one of which he clutches a handkerchief, move busily, while he grins or screws up his mouth and wrinkles his brow to mark the climaxes in his discourse.

This young man, who is minority leader of the Republican state senate, is nimble witted and a ready speaker, and not without a fund of gancy and humor. Was he not once asked "Will the Love Me in Denver, as You Do in May?" before anybody dreamed that Al Smith and Tammany would be putting that very question to Hylan and Hearst this year of grace?

Senator Walker is determined to be unequivocally nonpartisan on this occasion, so he contents himself with praising labor for its welfare, communism and capitalism, labor's support of all forward looking legislation, and the workers' adjourn to the races and other less serious celebration of their holiday.

"If the New York Democracy wants a man to run for President who would appeal to nearly every great element

which constitutes American citizenship, they could nominate John F. Hylan and elect him. But the New York City organization does not want Hylan any more than they wanted Tilден or any more than they wanted Cleveland."

Hearst Breaks Armistice.

In the meanwhile, William R. Hearst broke the Labor day political truce to the extent of writing a letter appearing today in the New York World, in which he denied being Mr. Hylan's boss.

"In all the time I have known Mayor Hylan," says Mr. Hearst's letter, "I have never asked a favor of him, nor has he asked one of me. He has never even discussed his political acts with him privately. Because of his sterling character and genuine ability Mr. Hylan has been an inspiration to every poor American boy and girl, one, too. Because of his clean and capable administration, some decency has reflected on the Democratic local organization and Tammany hall almost ceased to be stench in the nostrils of the nation."

But Tammany hall does not mind being a stench if there is profit in the stench. It does not mind being regarded throughout the nation as a political mafia if the Black Hand means blackmail and blood money.

A few weeks ago communist agitators, it is said, succeeded in calling a partially effective strike of British seamen when employers cut wages 15 a month.

Beyond Life Itself—Your Real Estate Purchase Now Safeguarded

A new service to real estate buyers which removes the factor of uncertainty that keeps many from profitable investment

George F. Nixon & Company ever eager to offer new and greater service to purchasers of its North Shore properties has worked out the Nixon Estate Protection Plan that is absolutely unique in the annals of area development.

Through an arrangement with one of the largest and oldest legal reserve life insurance companies in the world, purchasers of any North Shore property—Nixon-developed—will be certain that their wives, families or estates will benefit without any new cost, trouble, worry or red-tape, should they pass away before the property is paid up.

Citing a Concrete Case

If you, Mr. Reader, purchase a lot in any of George F. Nixon & Company's properties along the new "Loop"—Lake Forest high-speed division of the North Shore Line and the unexpected should happen—death—

Your wife or your estate will receive a clear deed to such lot.

In addition, your wife or your estate will be repaid in cash all monthly payments made by you on the lot, except the initial or down payment.

and other features safeguarding your investment are included in this Nixon Estate Protection Plan which are of paramount importance to real estate buyers.

These features we will be glad to explain to you.

This Plan a New Service

This plan which will protect purchasers of Nixon North Shore Properties beyond life is effective as of August 25th, 1925 (inclusive).

The very rapid growth of this organization and the constantly increasing volume of property sold and areas developed have resulted in a more economical method of conducting its business.

This decreased cost of operating enabled George F. Nixon & Company to work out and introduce this new protective purchase plan *beyond life itself*.

This Nixon Estate Protection Plan removes the only factor of uncertainty in connection with the purchase of Nixon-developed properties. It combines three advantageous features (1) Real Estate profit, (2) a definite savings, (3) an adequate estate protection.

Protection as You Progress

Even if you are not ready to move to the North Shore, even if you are not prepared to build or buy a home in this new transportation area you are making progress—personal progress—when you buy one or more lots.

And now under this new Nixon Estate Protection Plan, your family or your estate will be insured against death itself.

You cannot afford to overlook this great, constructive feature. Do not hesitate. Do not wait.

Come in or telephone—get the facts.

PALUSTREPINE

"The Safe Germicide"
Is Non-Irritating
and Practically
Non-Poisonous

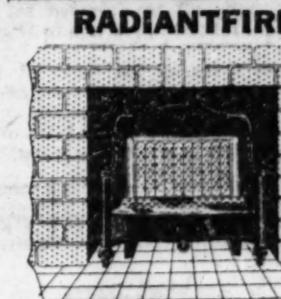

Absolute cleanliness means antiseptic cleanliness. Soap and water alone cannot give that. PALUSTREPINE is this carefully effective disinfectant, deodorant and germicide takes the place of the deadly, poisonous carbolic acid solutions formerly used for such purposes. Although 8 times more efficient than pure carbolic acid, it is safe to use in the home where there are small children. Women find PALUSTREPINE far superior in matters of personal hygiene.

ELsie JANIS

reveals
the Rosy Road
to SUCCESS on the Stage

in Liberty . . . out today

You often have come out of a theatre inspired by the brilliant success of some great star—wondering if you, too, could attain such success in your endeavors. Here is definite encouragement. Whether your endeavors are artistic or commercial, you will be intensely interested in the career of Elsie Janis, that scintillating sprite who is not only endeared to all America, but who has fired France and England into lasting affection.

You will be pleased with what Miss Janis says about ascending the ladder to Broadway's heights. She tells frankly and sincerely, with many touches of her delicious humor, the way toward sure success. She tells, too, about the many hearsey sacrifices the budding star is supposed to make. It is a very delightful article. Good news for the stage hungry. Good reading for all. It is one of the many entertaining features you will enjoy in this week's issue, out today, at all newsdealers, 5c.

BRITONS HOWL DOWN AMERICAN FOE OF DARWIN

Woman Stops Speech of Nebraska Professor.

LONDON, Sept. 7.—(AP)—Ten million Americans are "dead against Darwin," George McCready Price, professor of geology at Union college in Nebraska, whose speech attacking the evolutionary theory was shouted down last night, asserted today.

Dr. Price spoke last night at a meeting over which Earl Russell presided. He was interrupted by him frequently, and finally a persistent young woman Heckler forced him to stop speaking. The chairman appealed to the audience to permit the speaker to continue, but in vain.

Female of Species More Deadly.

"The female of the species, I guess, is more deadly than the male," Prof. Price said today in an interview to the Evening News. The Evening News correspondent quotes Prof. Price as follows:

"I guess what I said got under their skin. They English never did anything American. You don't think anything good can come out of America. Evolution has been accepted here in England for forty or fifty years and now they think it must be right. Last night's audience wouldn't hear anything against it. The women were even louder than the men."

"But I can assure you facts gathered in the last few months put the Darwinian theory in a new light. Already ten million Americans are dead against Darwin, and it is largely my book [Prof. Price has written on "The Doctrine of Creation"] that has made them swing around."

Predicts New Trend.

"Of course, there are millions of other Americans who don't care a fig about it, anyway. In England you are pleased, but when the new facts get known there will be a swing around even other here."

"You know I was asked to appear as an expert witness at the Dayton, Tenn., trial, but I could not get there. Bryan wanted me."

"It seems hard to say of Bryan, but he really didn't know a thing about the scientific aspect of the case. He didn't know a thing about it. He was too busy in his life to study. However, he was more hopeful than your evolutionists over here. Some of your evolutionists are the biggest pessimists in the world."

"H. G. Wells says that if we don't

do what he tells us to we will all just go to Hades. Personally I do not think man is on the upgrade, but I do think that man was created originally and that the ape may well be a degenerate form of mankind."

On Leave from College.

Lincoln, Neb., Sept. 7.—(AP)—Prof. George M. Price was a professor of modern geology in Union college, in a Lincoln suburb, for two years. Union college is of the Seventh Day Adventist denomination. Prof. Price was granted an indefinite leave of absence last fall.

Wahabi Chieftain Denies Attack on Sacred City

[Chicago Tribune Press Service.]

CAIRO, Sept. 7.—Sheik Ibn Saud, leader of the Wahabi tribesmen, in a cable to Cairo, today declares the report of the bombardment of the sacred city of Medina is enemy propaganda. He says the Wahabi surrounding Medina do not possess guns and show the greatest respect for holy places.

SCHOOL TEACHER, MIND A BLANK, GOES HOME BROKE

PHYSICIAN'S SON REVIVED FROM EFFECTS OF GAS

Clinton Mulholland, 33 years old, 15209 Fairfield avenue, Detroit, principal of a Pontiac, Mich., high school was on his way home last night, his mind a blank as to what had happened to him during a visit of a few days to Chicago. All that he was sure of was the sum of \$300 in cash and his gold watch.

Mulholland was found by police wandering around the Illinois Central station. He was dazed, as if from a drug, unshaven, and unkempt. The police had been looking for him at the wired request of his wife, Beatrice, who said she had had a strange telegram from him Sunday.

In a pocket was the card of the telephone company, P. C. Baker, 1132 Washington boulevard, who told police that Mulholland, a friend of many years, had borrowed a small sum of money from him to telegraph to Mrs. Mulholland he had been playing with matches.

CHILD—MATCHES—MURKIN—DEATH.

DETROIT, Sept. 7.—(AP)—Mrs. Wolfberg, a daughter of Harold A. Wolfberg, Denver merchant, died today from burns received while playing with matches.

FREE—10-day tube—mail the coupon

No "off-color" teeth no toneless gums

when that dingy film is removed

Accept this remarkable dental test. You'll gain the dazzling white teeth and coral-like gums that make smiles attractive and inviting.

MODERN dental science has made important, recent discoveries in lightening cloudy teeth.

In a few days you can work great changes in the color of your teeth: can give them dazzling whiteness, and your gums the healthy coral tint you envy.

If you seek new beauty and new charm, test this new way. Do as millions are doing on dental advice. Multiply the value of your smile. Mail the coupon. A 10-day test will be sent you.

Beneath that film are gleaming, glorious teeth

Run your tongue across your teeth, and you will feel a film, a viscous coat that covers them.

That film is an enemy to your teeth—and your gums. You must remove it.

It clings to teeth, gets into crevices and stays. It absorbs discolorations and gives your teeth that cloudy, "off-color" look.

New methods remove it.

And Firm the Gums

Now, in a new-type dentifrice called Pepsodent, dental science has discovered effective combatants. Their action is to curl

the film and remove it, then to firm the gums.

Ordinary methods fail in these results.

Thus the world has turned, largely on dental advice, to this new method.

What you see when that film is removed—the whiteness of your teeth—will amaze you.

You are simply hiding the natural beauty of your teeth.

• • •

A few days' use will prove its power beyond all doubt.

Mail the coupon. A ten-day tube will be sent you free.

EXCHANGE YOUR
GERMAN BONDS
IF INDUSTRIALNow Certificates Required
by Dec. 28.EUROPE UNDOUBTEDLY
IS PICKING UP, SAYS
U.S. COMMERCE EXPERT

Washington, D. C., Sept. 7.—(Special)—Unmistakable appearances of fundamentally improved conditions are evident in Europe, Assistant Secretary of Commerce J. Walter Drake said today, following a tour of Great Britain, France, Belgium, the Netherlands, Germany, Switzerland, and Italy, in which he conferred with field officers of the department of commerce.

The improvement varies from country to country, but there is a gain in industry, in transportation, in commerce in spite of adverse factors after the armistice," said Mr. Drake. "Generally speaking, the agricultural population is employed with good prospects. In the industrial field progress is being made, and American business is back again. We can afford to rest on their oars in the belief that we are going for American products in foreign markets. While we have great advantages in our advanced industrial methods, we should not ignore the fact that restored economic activity in Europe means sharper competition."

To Send Special Commissioner.

BERLIN, Sept. 7.—(AP)—To facilitate the revaluation and conversion of German industrial securities now held in the United States, the German government has sent a special commissioner to America in the latter part of this month to work out methods for assisting American holders in the registration and exchange of their bonds.

The commissioner, whose name is not made public, will cooperate with the embassy at Washington and the German consulate in designating certain American banks where the old German bonds may be exchanged for new certificates.

German Decree Forthcoming.

He will seek every possible avenue to secure publicity for acquainting American holders with just what they must do. The embassy and consulates were physical maladies, and must be treated as such with rest, care and proper medicines.

In his lifetime, Dr. Keeley returned

thousands of happy men and women

to their homes—entirely free from

the thral of Drink and Drugs.

The Keeley Institute at Dwight, Illinois,

has continued the same work in the same manner—with the same happy results.

CHAS. A. STEVENS & BROS

Stevens Interprets the Mode
for AutumnRich Warmth Distinguishes
NEW AUTUMN COATS
\$55 \$375

Luminously soft woolens or velvets in bright or dark shades are richly and uniquely trimmed with Wolf, Fox, Beaver, Squirrel, Mink, Natural and Dyed Civet, Lynx, and Fitch. The Queen Anne collar is new in line, and a knowing use of decoration adds interest.

MISSES' COATS—THIRD FLOOR
WOMEN'S COATS—FOURTH FLOOR

Two-Piece
COSTUME SUITS
Fill a Real Autumn Need
\$85 \$385

Harmonizing in flowing line and subtly blended or contrasted color and fabric—the two-piece costume suit is worn on all occasions. Fine Tweeds or Mixtures, exquisitely woven woolens, and soft velvets are favored for coats—the gowns beneath fashioned of every conceivable fabric or color. Luxurious furs are lavishly and effectively used.

MISSES' SUITS—THIRD FLOOR
WOMEN'S SUITS—FOURTH FLOOR

AUTUMN MILLINERY
Shows the Midas Touch

Gold and Silver glitters resplendent on the most recent arrivals in Autumn Millinery. Metal Brocades, and Metal Georgettes, are often touched with feathery ostrich—bright lines of gold and silver appear on Black—these are the most fascinating turns of the Millinery mode. Small close models range side by side with sweeping shapes touched with fur—velvets, velours, fells, and satins take many new shapes and trimmings.

MILLINERY—FIFTH FLOOR

SWEATERS and BLOUSES
of Autumnal Atmosphere

Turtleneck Sweaters, Pull-overs, and Tee Jackets are developed in Brushed Wool for Sports Wear. Interesting new models in Blouses, Tunics, and Blouse Ensembles arrive daily. The latest colors, materials and designs are presented for early selection.

BLOUSES—THIRD FLOOR

GIRLS' and JUNIORS' FALL APPAREL
of Practical Charm

Dresses for school and every day wear include models of Balbriggan, Twill, Charmeuse, Serge, Flannel, or Wool Crepe—for dress wear there are frocks of Satin Crepe, Crepe Elizabeth and Crepe de Chine. Many types of coats are offered—of Tapestry, Tweeds, Small Checks, Campus Cloth, Carnuba, Velvabloom, and Kasharellas in many colors. Dresses \$7.50 to \$30. Coats \$25 to \$195.

LITTLE DAUGHTER'S SHOP—THIRD FLOOR

The Pearl Headed Pin

By ROY VICKERS

Rec. U. S. Pat. Off.

SYNOPSIS.
Two years ago Margaret Hallett had been married to Henry Ledway, who is supposed to have died in a railroad wreck. He had been accused, in the partition, of murdering a business rival. Selkirk was sentenced to twenty years and one month. He called on Mrs. Hallett to tell them that neither he nor Henry Ledway was guilty of the murder. The Halletts come to the London home and Margaret goes to the dismasted house for a meeting with the condemned man. She is waiting for March. Ledway comes into the room and threatens her with black and white lies and other dirty tricks. She runs through an open shaft and mistakes for a hidden staircase. Mrs. Hallett tells her that he is a little old man and never gives up the attempt to locate Ledway's true identity. He finds a piece of paper which he had taken from his pocket. It is a forged will. March by means of letters and other papers found the paper and the forged will. The police fail to apprehend him. Mrs. Hallett is convinced that it is the forged will which has led him to his present position. She goes to the police and rather than have her husband and daughter accused of the forged will, she is identified as that of Ledway—she testifies at the coroner's inquest that she has given the will to March. Her husband and daughter Joan are astonished at this admission and are further bewildered at the news that March has made his will in her favor.

INSTALLMENT XX.

THE CENTRE OF THE WEB.
Mrs. Hallett's mind returned to Selkirk and she considered him and the extraordinary situation into which he had been thrust, she realized that the essence of Selkirk was for the moment the very spinning-centre of the web. When she had first realized that by revealing the identity of the murdered man she would be placing her husband and herself in the dock for murder, it had seemed a small thing to suppress the truth—to lie a little, to temporize and to evade. But here had been also the possibility that the murdered man was really Mr. March, and that Selkirk was really his murderer. With understanding had come, gradually, the acceptance of an appalling fact: if by her little lies and subterfuges she succeeded in keeping herself and her husband out of the dock, she succeeded equally in dragging Selkirk—an innocent man—into it. Wilful murder against Selkirk!

She shivered and looked out of the window. The car had left the main thoroughfare and was threading its way through the quiet residential streets which led to the flat. . . . If there had ever been any doubt as to whether George and Joan would agree to be silent when told the whole truth, there was

They were so idiotic about the wreaths, Mumsie, that I collared the manager and brought him back on a lead."

None now. Not for one moment would they consent to imperil Selkirk's life. Not for one moment, Mrs. Hallett assured herself, did she intend to imperil Selkirk's life. And yet—and yet—She was torn with indecision. But for Selkirk she would not have hesitated. She would have lied away her very salvation before bringing shame and disaster to her loved ones.

She became aware of the grave scrutiny accorded her by the two young people who had constituted themselves her judges. Joan's cigaret had gone out. Ray Bristow's little fingers grimly snuffed it.

"Do you believe that I invited Selkirk to murder your uncle, Ray?" she said impulsively.

"Course not!" came jerkily from Joan. But—

"You want me to answer quite honestly?" Ray answered her. "Then think that you are capable of killing in the same way that men kill their enemies in war; to protect the happiness or safety of someone else."

"I'm never going to tell you mine," Mrs. Hallett assured him. She all at once immensely weary.

Then, in a flash, the weariness was dispelled. Her car was turning into the street in which her flat was situated and, lounging against the window of the florist's shop at the corner, she had recognized Selkirk. Only for a split of seconds had she seen his face for his renewed contemplation of the display of flowers had brought his back and his hunched shoulders alone into view. Nevertheless, she was positive. Immediately her brain began to work.

She was about to call him when he turned to her. "I'm going to tell you mine," he said earnestly to Ray Bristow.

"You are not thinking very clearly, dear boy. If you can believe that I could kill for the sake of those I love, why can you not believe that I could do the same motive?"

"I—of course, I see that that is possible," admitted Ray.

"Yet you treat me with a contempt which apparently you wouldn't show if I had killed my enemy in war. You won't let me ignore your uncle's name in war; to protect the happiness or safety of someone else."

"I'm never going to tell you mine," Mrs. Hallett assured him. She all at once immensely weary.

The picture is from Coningsby Dawson's novel. The story has been changed some but as it stands it is a great vehicle for a great actress.

[Miss Gloria Swanson, G. A. J.]

"Mumsie, I—"

"If you believe it, Ray, you will accept the money."

The car had drawn up before the entrance to the flat and Ray slid open the door and stepped out. At the same moment Mrs. Hallett deliberately pocketed the cigaret holder from her daughter's hand.

"Mumsie?"

"One moment, Ray," called Mrs. Hallett. "Joan has dropped her holder."

The girl bent to retrieve it she leaned over her.

"The man looking into the flower-shop at the corner is Selkirk," she whispered.

"If you trust me—if you want to stand by me—get him to me."

"Without Harcourt seeing him. Take him into your own sitting room. He will be pale but quite unruffled."

"Has Carter seen him before?"

"All right, then." She raised her voice. "Ray, tell Carter to drive back to flower shop at the corner, will you? I want to arrange about the wreaths for Mr. March's funeral."

Mrs. Hallett stepped out on to the pavement and motioned to Ray to accompany her indoors. She was careful not to look after the retreating car.

It proved a simple matter to keep Harcourt out of the flat for a required number of minutes. As Mrs. Hallett entered the flat, Ray Bristow, the butler, had a note from her husband. She opened it at once and read it.

"What we both had in court this afternoon, neither of us can ignore."

"Twenty-four hours I am going to stay at the club. During that time I think pretty steadily of the last twenty years which to me have been really happy. I think that I shall then be able to listen with that sympathy which is your right to any explanation you care to give to me—George."

"Mrs. Hallett, I—"

"If you believe it, Ray, you will accept the money."

BOROTRA VICTORY PUTS FRANCE IN DAVIS CUP FINAL

(Picture on back page.)

Forest Hills, N. Y., Sept. 7. (AP)—Two doughty sons of France today won the right to challenge the Americans for the Dwight F. Davis cup, symbol of international tennis supremacy. The tricolor representatives this afternoon eliminated Australia from the competition, and as a result will meet the United States team in the challenge round in the two courts of the German-American Cricket club, Philadelphia, Thursday, Friday, and Saturday of this week.

Australia, winner of the American zone bracket, fell before the dazzling play of France, winner of the European tournament in the Inter-zone final, 1. Jules Dugard of France, Wimbledon champion in 1924, lifted the tri-color to its place in the challenge round by scoring the third victory of the tournament for his nation when he stroked his way to a smashing victory over Gerald Patterson of Australia on the wet grass courts of the West Side tennis club today, 4-6, 6-1, 6-3.

LaCoste Defaults.

Previously to today France had secured two singles and one doubles victory in the challenge round against Australia. Owing to the fact the fifth match could have no possible influence on the ultimate result, Rene LaCoste elected to default to James O. Anderson, Australian champion, on account of the wet conditions of the courts. While LaCoste actually defeated the man who had gone down on the Davis cup records, he did not. The captains of the two teams agreed to declare it no contest, terminating the tie at the conclusion of the fourth match.

Borotra's play today was an exhibition of almost perfect tennis despite the interference of the elements. A dazzling racket, which did not go far in part of the contest, making the courts soggy and the bound of the ball sluggish but this did not appear to handicap the French ace. He vanquished Patterson in face of one of the most blinding services in the history of Davis cup competition.

Borotra Plays Great Tennis.

Borotra pulled everything he had from his bag of strokes and tossed them at Patterson, with a kidney sneeze that was startling. He took Patterson's blunder and when he had it, he spelled it back at the amazed anti-American with an additional speed which found the big Australian far out of place.

In defeating Patterson and eliminating Australia, Borotra rose to heights he never before attained. Only in service did the Australian have any edge on his French rival and only by the use of this offering was Patterson able to force the issue into four sets.

Despite Borotra's ability to handle his vicious service, Patterson scored 14 service aces in the match to but three for Borotra. Against an ordinary opponent the big Australian would have reaped a bagful of aces.

Patterson Wins First.

The Australian started his career very modestly, defeating Ray Bennett in the opening set, breaking Borotra's service in the tenth game after dividing service with his rival up to that point. In the second set Borotra began to decipher his rival's shots and he won 4-4, breaking through service twice.

The third set saw the contest down to the Australian's threat, as he scored two wins into the discard three straight times and he lost the set, 6-1. That was the beginning of the end, for Borotra took the fourth set and the match, 6-3.

By virtue of today's triumph France stands the lone survivor in a field of 25 nations which are still in the tournament for the Davis cup. In its tour to the challenge round France eliminated Hungary, Italy, England, and Holland to win the European zone and then topped this performance by eliminating Australia in the Inter-zone final. Incidentally this is France's first appearance in a challenge round Australia having eliminated the tri-color in the Inter-zone final in 1923 and 1924.

WALLACE SPEEDS TO VICTORY IN THORNTON RACE

Robert Wallace, the one-mile western champion for colorado drivers, won the race at the Thornton speedway yesterday afternoon in a close finish from Bill Carson, who finished second. Wallace drove an Acme Ford and Carson a Froney Ford.

Bill Buckner landed third in a B. & R. Special and Hugo Barnes, in a D. & R. Special, fourth. Bill Jeffries, a Frontenac who ran into the fence during the first lap, managed to get his car back on the track and wound up a lap behind the winners. Jeffries won one of the ten mile eliminations. Lawrence Wiggins, in a Wiggin Special, was second, and Carl Harper was third. Another ten mile elimination was won by Robert Wallace with William Buckner second and Malcolm Hannon third. A big crowd attended.

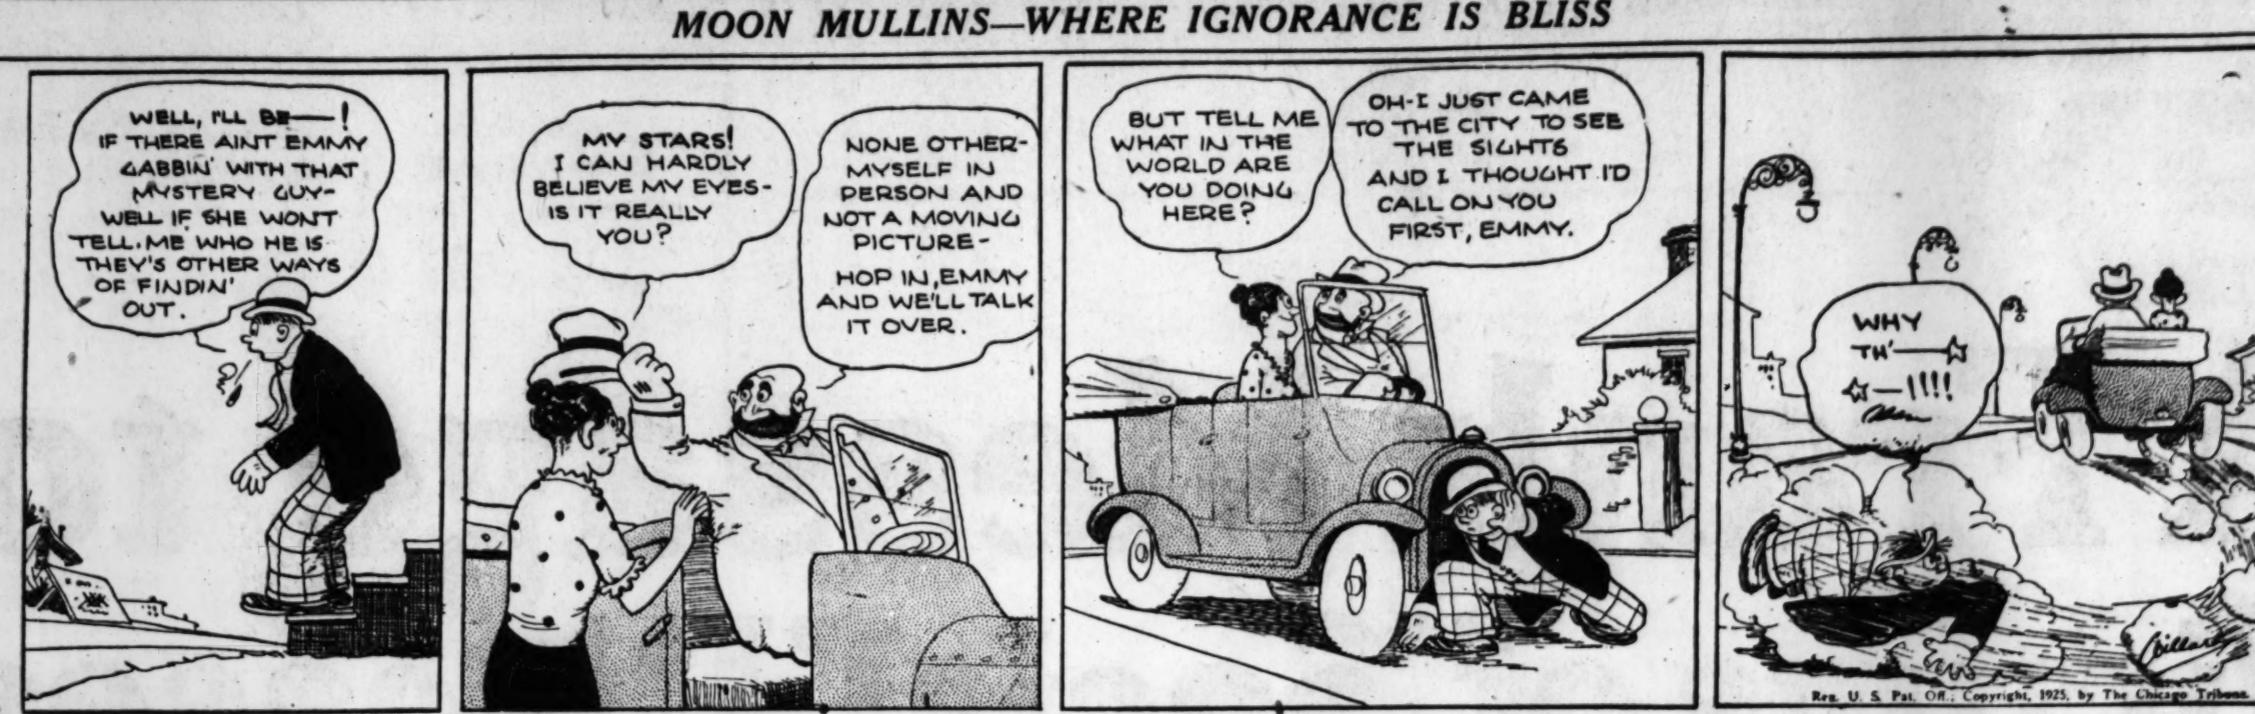

WOMAN KILLED ON WAY TO GAME

Tulahoma, Tenn., Sept. 7. (AP)—Mrs. Evelyn Burnett of Nashville, Tenn., was killed today when an automobile driven by her uncle, J. A. G. Sloan, president of the Nashville chapter of the Southern association, overturned on a curve of the Dixie highway near here. Mrs. Thomas Patten, another occupant of the car, was bruised. The party was en route to Chattanooga for today's ball game.

Players from Four Clubs Mix in Practice Polo Game

Poloists from Fort Sheridan, Onondaga, Wethersfield, and Greenwich played a practice match at Onondaga yesterday. A big crowd saw the contest, which was preceded by practice battles between players of the Onondaga club. The four clubs which have battled against one another in local tournaments registered a novelty performance in mixing together for the one game.

Lincoln Park Crews Beat Quincy in Closing Regatta

BY WALTER ECKERSALL.

(Pictures on back page.)

The Lincoln Park boat club, one of the leading rowing associations in the middle west, closed its most successful season in years yesterday when the local oarsmen defeated the South Side Boat club of Quincy, Ill., in a dual regatta held in the Lincoln park basin in the presence of thousands of boating fans.

Oarsmen of Lincoln park decisively defeated the visitors in the visitors in the

HENRY HAYES, a

three of the four oarsmen in the

Lincoln Park

four, while Quincy won from the Lincoln park four by three lengths in a one mile dash for four oared shells. In the other races, Lincoln park experts won as they pleased and showed their superiority beyond question.

Win Many Other Honors.

In addition to winning this final regatta, Lincoln Park captured the major share of the honors of the southern states regatta held early in the summer at St. Louis. The local eight oared crew defeated St. Louis Military academy Monday day in the Oliver Academy summer school competition in Tuskegee's annual regatta.

In the same event, the Lincoln Park crew won from the Illinois Valley Yacht and Canoe club in a dual regatta of three races, all of which were won by the local oarsmen.

At the annual regatta of the Lincoln Park club this summer it due largely to its present officers, J. Alfred Green, commodore; Charles Heehler, vice commodore; and Henry Hayes, captain.

The latter especially has worked tirelessly all season to see that the oarsmen trained properly and he seldom missed an evening at the club to see that the shell was in top condition and the oarsmen given a chance to practice.

MINER BODKIN Wins First.

Charles Miner of Lincoln Park easily defeated Ray Bennett of Quincy in the one mile single shell. The local expert was two lengths in the lead at the half mile mark and when he shot under the line had increased the advantage to two and one-half lengths.

Miner teamed with Bob Bodkin to win the double shell one mile from the

PARK RIDGE NET MEET MOVES UP WITH PIRATES; TO SEMI-FINAL DAY ENDS A DRAW

Art Hubbell and Frank O'Connell won their way into the semi-final round of the Park Ridge tennis tournament yesterday, a crowded day of play which carried the doubles from the first into the fourth round and which saw the singles field narrow down to a few outstanding favorites. Semi-final and final rounds will be played on Saturday and Sunday.

Hubbell moved into the semi-finals by defeating J. O. Dwyer, 6-4, in the fourth round and then posing of S. C. Burkland in the round, 6-0, 8-6. O'Connell had a fifth round match from Tom Toot, 6-6, 6-2, 6-2, but he was a mere spectator in the fourth round, 6-2, 6-4.

The fourth round was crammed with furiously fought matches of which went three sets before making a decision. Les Lester, Stan Drake, Vanzwall, and G. Nevees all won by the three sets score.

Todd Stops Australian Middleweight at London

LONDON, Sept. 7. (AP)—Todd, middleweight champion of Great Britain, stopped the Australian middleweight, Charles Ries, in the Blackfriars arena tonight, but Ries refused to stop the contest in the eight round.

Noel Pleads Guilty to Kidnapping, but Fails to Answer to Murder Charge When Arraigned in Court

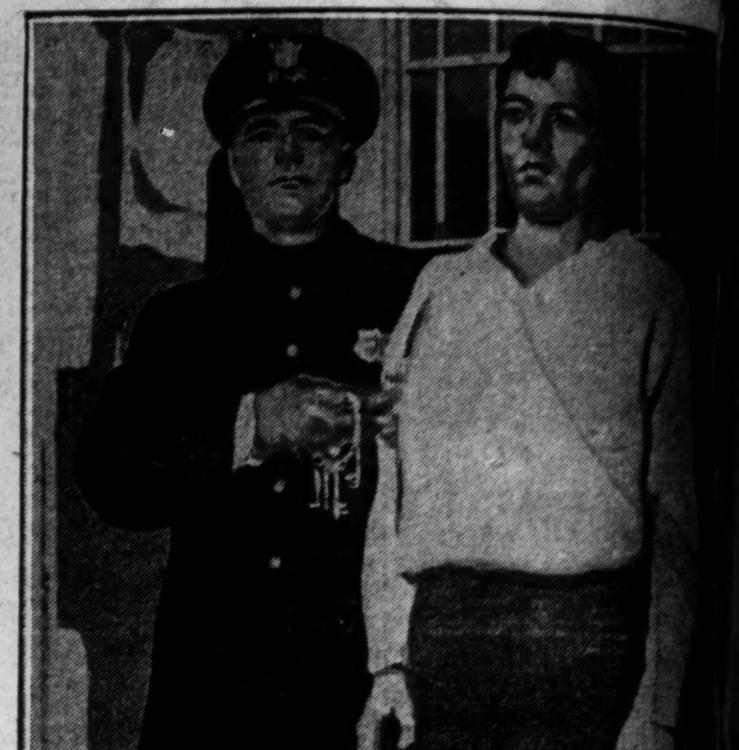

BOY LEADS OUTBREAK AT JUVENILE DETENTION HOME. Juvenile Officer Charles Wolfenbarger questioning Sylvester Skoronski, who held up attendants with pistol. (Tribune Photo.)

DISCOVERY OF KIDNAPED GIRL'S BODY NEAR LITTLE FALLS, N. J. Harrison Noel, the slayer, is standing, white shirted and with collar open, in the center background, his wrists held by two of the policemen in the party. (Pacific and Atlantic Photo.)

(Pacific and Atlantic Photo.)
CONFESSES. A closeup of Harrison Noel, who admits two murders. (Story on page 1.)

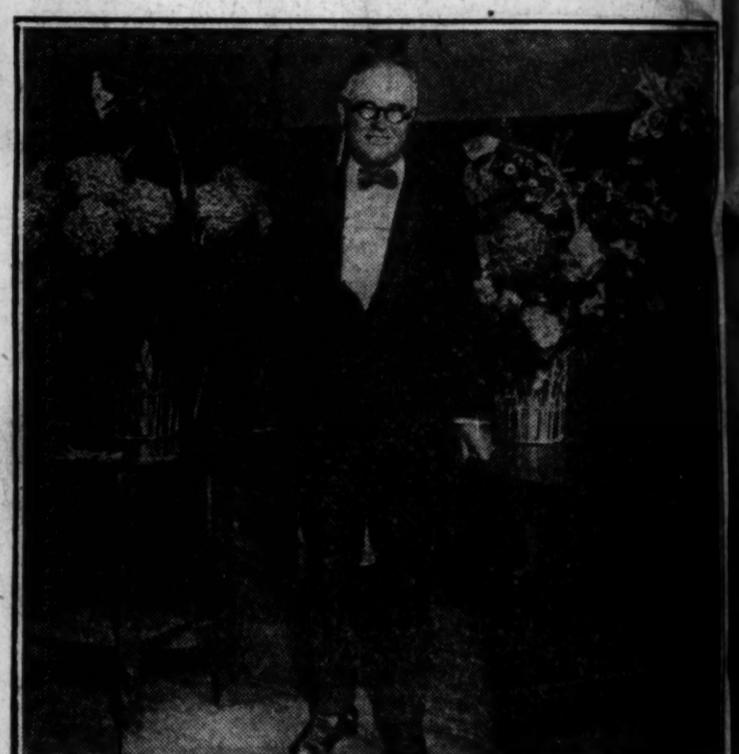

SLAYER HELD PRISONER IN NEWARK JAIL. Harrison Noel (right), who has confessed killing Mary Daly, is front of his cell, guarded by the prison warden. (Telepix Photo: Copyright by P. & A. I.)

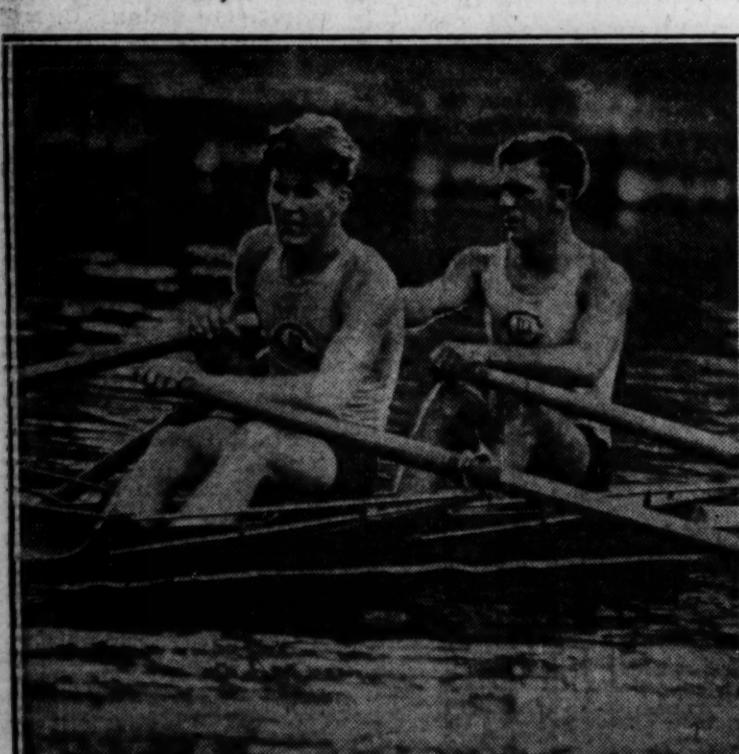

QUINCY WINS FOUR OAR RACE, BUT LOSES REGATTA TO LINCOLN PARK. Left to right: Ray Bennett, stroke; W. E. Arp, No. 3; William P. Arp, No. 2, and George Hussong, bow, who won one mile four oared shell contest for Adams county club. (Story on page 30.)

BOUNDED AND ROBBED. Mrs. Mary Jensen, surprised in home at 4843 Quincy street. (Story on page 1.)

NEW CHIEF JUSTICE OF CRIMINAL COURT TAKES SEAT. Judge Thomas J. Lynch, who takes place of Judge Jacob H. Hopkins, opens September term of court. (Tribune Photo.)

LINCOLN PARK BOAT CLUB'S WINNING PAIR. Charles Miner, stroke, and Robert Bodach, bow, who defeated Quincy oarsmen in one mile double shell race. (Tribune Photo.)

STATESMAN DIES. Rene Viviani, former premier of France, passes away in Paris. (Story on page 12.)

TWO DROWN IN DRAINAGE CANAL WHEN BOAT UPSETS. Alex Wrezinski, 928 West 32d street (left), and Elmer A. Utecht, 939 West 32d street, victims of accident. (Story on page 1.)

GETS POST. Walter P. Cooke, Buffalo, named Dawes arbitral tribunal chief. (Story on page 1.)

CROWD OF 5,000 WITNESSES FINISH OF TWENTY-TWO MILE HANDICAP BICYCLE RACE IN HUMBOLDT PARK. William Bereszynski of the Antlers' Sportsmen's club, who rode from scratch, winning the feature event of the bicycle races held yesterday under the auspices of the Franklin Skating and Athletic club. The Antlers' club carried off the honors of the meet with 39 points. (Story on page 22.)

FRENCH TENNIS PLAYERS WIN THEIR WAY TO DAVIS CUP FINALS. Jean Borotra, who cinched the honors for France yesterday by defeating Gerald Patterson of Australia, knocked out by fast ball in Saturday's doubles which French also won. (Wide World Photo.)
